

# RED WARNING TRACKS

◆WARN PLAYERS OF THEIR DISTANCE TO FENCES & WALLS !

◆FIRM YET "CRUNCHY" SURFACES WITH EXCELLENT DRAINAGE !

*Aesthetically, The Finishing Touch To Great Ballfields!*

**Used by Pro, College and Recreational Ballparks Across The Country!**

Our Red Warning Track surfaces provide a firm professional-quality surface, with excellent drainage, without big pieces to twist an ankle or catch in mowers, yet with a "crunchy" feel to warn players of the fence or wall.

Apply 1-3" over a firm drainage base for outfield and sideline warning tracks, coaches boxes, fungo circles, on-deck circles, as well as paths to home plate and areas in front of dugouts. Provides the finishing touch to showcase your baseball diamond!

## 3/16" RED WARNING TRACK

*Beam Clay's Most Popular, Best Functioning Warning Track Material:* 3/16" Burgundy Red Argillite Aggregate with 5% Beam Clay Red Binder. Weight - approximately 2,700 lbs. per cubic yard. Available in bulk or in 50 lb. bags.

## 3/16" RED BRICK TRACK

*Our Premium Crushed Red Brick Warning Track:* Weight - approximately 2,400 lbs. per cubic yard. Also available in 2mm, 1/4", 1/4" without fines & 3/8" in bulk from 12 regional locations or in 40 lb. bags.

## 1/4" RED LAVA TRACK

*The Popular Choice of Many Pro Stadiums:* Deep red, uniform 1/4" particles with fines to compact for a firm warning track surface yet still provide players with a "crunchy" feel. Light in weight (approximately 1,400 lbs. per cubic yard). **Economical to ship long distances!** 1" over 15' x 600' outfield warning track takes only 23 tons! Available in bulk or in 1/2 cubic foot bags, one cubic foot bags, or one ton bulk bags.

## REGIONAL WARNING TRACKS

*Regional 3/16" and 1/4" Warning Track Surfaces.* Available in Red, Brown, Pink, Grey or White from various regional sites.

*YOUR "ONE-STOP SOURCE" FOR AMERICA'S BASEBALL SURFACES & SUPPLIES!*
