BEAM CLAY®

Rogers® Break Away Bases®

**SAFETY**

Thirty-five years of clinical research, testing and development on **Rogers® Break Away Base® System** has produced a superior base that disengages upon impact caused by improper sliding technique. And while others bill themselves as the safest on the market, the **American Journal of Sports Medicine** said our product – and only ours – “...should be mandated.”

**VALUE**

The **Center for Disease Control and Prevention** determined that if the nation's baseball and softball fields required the use of breakaway bases, approximately 1.7 million injuries per year would be prevented – saving about \$2 billion in related health care costs. These facts not lost on **Little League Baseball**, Rule 1.06 requires that all their fields be outfitted with disengage-able bases for commencement of the 2008 season.

**PERFORMANCE**

The unique design and structure of our base system, comprised of a base top, base plate, and an anchor housing, produces superior performance. Pliable rubber grommets molded to the base plate provide for a snug and secure connection to the base top, which will NOT disengage during ordinary play – only with the force created by improper slides. And unlike the competition, our system's superior design never creates a secondary hazard upon release.

**DURABILITY**

The best materials make the best product. **Rogers® Break Away Base® System** uses only the highest quality materials for its superbly engineered components. Installation is simple, and its toughness and durability will endure inning after inning, for seasons to come.

So whether you're in the business of selling sporting goods equipment, a youth league administrator in charge of ensuring field safety, or a Major League Owner interested in protecting your investment, go with **Rogers®**, and take the breaks away from the game.

Rogers® Break Away Base® System

The safest, highest performing, most durable disengagable base on the market. Sets the standard that others have attempted to follow.

- The base system is unique in its design and consists of three components:
 - **Anchor System** – The anchor ensures that the system will not shift after installation and ensures that the position of the base plate is at the grade of the field and does not create a secondary hazard.
 - **Base Plate** – Durable rubber grommets are positioned on a rubber coated steel plate and allow for a controlled deformation and release of the base top when necessary.
 - **Base Top** - The construction of the base top allows for varying degrees of firmness to match the level of competition.
- There are no magnets or stationary above ground components that can malfunction or cause safety issues.
- High quality, natural rubber construction provides years of use.
- Multiple base tops provide superior performance at all levels of play and environmental conditions.
- The only base clinically proven to reduce injuries. The documentation is available on numerous studies and clinical trials that you can share with your customers regarding the performance and effectiveness of this product
- Product Endorsements / Sponsorships include:
 - Little League® International
 - Used at Little League® World Series and all Williamsport complex fields
 - Used at all Little League® US Regional qualifying tournaments
 - Used at Little League® Asia-Pacific Tournament in Hong Kong
 - Used at Little League® EMEA Tournament in Kutno, Poland

BEAM CLAY®

Rogers® Break Away Bases®

Breakaway Base Rule Goes Into Effect Soon

WILLIAMSPORT, Pa. (Oct. 3, 2006) – Local Little Leagues have until the 2008 season to install breakaway bases for all levels of play, if they have not already done so.

So now is the best time to get this important project done!

The new rule appeared in the 2006 baseball and softball rule books of Little League:

Rule 1.06: Beginning with the 2008 season, it will become mandatory that all leagues utilize bases that disengage their anchor. Leagues are encouraged to begin the process of implementing these types of base systems during the current season on all their fields so that the process is completed by the 2008 season.

ROGERS® BREAK AWAY BASES® are Little League Approved
