**Field Marking System**

**Step-by-step guide to eliminate repeated measuring and staking. From now on... Just connect the dots.**

**Any Time is the RIGHT TIME to Mark Your Fields PRE-SEASON:**

You have to stake and measure anyhow. Why not install and your staking and measuring days are over.

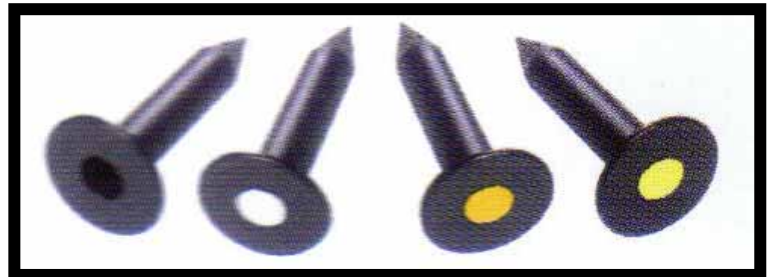

**MID-SEASON:** You already have the field lined and set. Why not permanently mark critical locations with so your staking and measuring days are over.

**POST-SEASON:** Before the lines fade away, install and you're ready to connect the dots for next season, without staking and measuring.

...It's the Only Field Lining System available that includes the Multi-purpose Ground Socket that:

Is easily installed and permanently locates critical line intersections.  
Accepts a Lining peg which, with string attached, provides plumb line for lining fields.  
Holds or anchors Game-Day Field Markers on the windiest of days.

This simple system has saved hundreds of hours of field set-up time at thousands of schools, parks and recreation departments.
