Step-by-step guide to eliminate repeated measuring and staking.
From now on...
Just connect the dots.

Any Time is the RIGHT TIME to Mark Your Fields PRE-SEASON:
You have to stake and measure anyhow. Why not install MarkSmart and your staking and measuring days are over.

MID-SEASON: You already have the field lined and set. Why not permanently mark critical locations with MarkSmart™ so your staking and measuring days are over.

POST-SEASON: Before the lines fade away, install MarkSmart™ and you’re ready to connect the dots for next season, without staking and measuring.

The MARKSMART™ Field Marking System

...It’s the Only Field Lining System available that includes the Multi-purpose Ground Socket that:

- Is easily installed and permanently locates critical line intersections.
- Accepts a Lining peg which, with string attached, provides plumb line for lining fields.
- Holds or anchors Game-Day Field Markers on the windiest of days.

This simple system has saved hundreds of hours of field set-up time at thousands of schools, parks and recreation departments.
