

BEAM CLAY®

GymGuard® Floor Protection System & Storage Rack Solutions

WHOLESALE PRICE LIST
EFFECTIVE: JANUARY 1, 2011

Add Years to The Life of Your Gym Floor!

Most gyms are multi-purpose. So your gym floor has to hold up to a lot more than sports - dances, concerts, graduations and other activities. It gets heavy foot traffic, stains, scuffs, impact from furniture and more. GymGuard® covers are built tough to protect your investment.

Cover features:

- **Ultra-durable, 3-ply fabrics** – reinforcing polyester mesh
- yarns coated evenly with PVC on both sides, so you can
- use either side up
- Fire retardant to all standard fire codes
- Exceeds **ADA** and **OSHA** requirements for slip-resistant surfaces
- Seams engineered to be as strong as the fabric itself and to lay smooth and flat
- **15 colors** available
- **5 weights** available: 32oz., 27oz., 22oz., 18oz. and 10oz.
- (10oz. is reinforced polyethylene)
- **Waterproof, rot and mildew resistant, anti-fungal and anti-bacterial**

All GymGuard® floor tarps are fully warranted against fabric and manufacturing defects (see specifications).

Customize your rack cover!

Add lettering and/or logos to your rack cover to enhance the appearance of the rack while in storage, boost school spirit and generate revenue through ads and sponsors.

Customize your gym floor cover!

Add lettering and/or logos to your gym floor cover to enhance the appearance of the cover and boost school spirit!

We have the widest range of product options in the business. There are thousands of GymGuard® Systems in use - call for references in your area.

Two people can cover your entire gym floor in 30 minutes!

How to choose the right GymGuard® fabric for your floor:

GymGuard® covers come in five standard weights. In order to recommend the most cost-effective GymGuard® cover for your application, we need the following information:

- Size of floor area to be covered: length x width?
- How many times will you cover and uncover your floor per week/month/year?
- What type of functions will you have on the covered floor?
- Do you have a color preference?

Cover sizing – the 10-foot solution

GymGuard® covers are constructed in 10'-wide sections for easy handling. When figuring the size cover you need, we suggest adding 6"-12" for overlapping each section. (For example, for a 75' x 110' floor, order 8 sections measuring 10' x 110' each.)

GymGuard® Cover Colors

Actual colors may vary.

BEAM CLAY®

GymGuard® Floor Protection System & Storage Rack Solutions

WHOLESALE PRICE LIST
EFFECTIVE: JANUARY 1, 2011

GymGuard Safety Storage Rack – for easy lay-down and roll up.

Our standard rack allows safe, fast and easy covering of the gym's surface. It is available in 6, 8 and 10 roller models (Special racks can be built to order.)

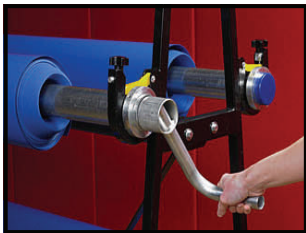

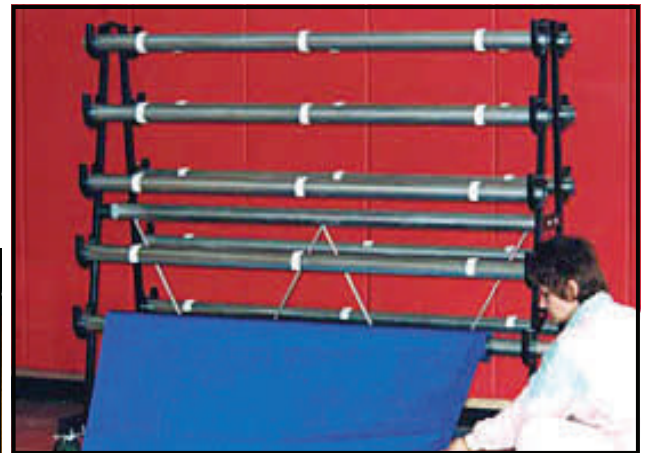

The Safety Storage Rack has been updated to an improved safety and usability standard.

The standard features are:

- **Four 8" non-marking urethane, swivel-type wheels** – can support up to 3,600 pounds of cover and rack
- **Yellow safety bar and aluminum safety collars** – prevent the roller from popping out, side-to-side movement and accidental finger pinching
- **Blue vinyl end caps** – protect from sharp edges
- **Safety brake** – placement and design make it easy to lock all wheels in place
- **Rollers** – 14-gauge galvanized steel and the entire frame is mig-welded, **all steel construction**

Included with all racks:

- 2 hand cranks for easy winding
- 3 fabric clips per roller for securing cover to roller
- Instructions for assembly and operation

Hand cranks.

Aluminum safety collars prevent finger pinching. Yellow security bars stop roller pop-outs. Blue vinyl end caps protect from sharp edges.

Wheel brake: Four 8" non-marking, urethane swivel-type wheels allow for easy movement of rack. New design and placement of safety brake make it easy to lock the wheels in place. (Six wheels are available on the new Premier Safety Storage Rack.)

Mini GymGuard® Safety Mobile Storage Rack

We also offer a mini storage rack for five-foot wide cover sections for smaller storage areas or for those with limited storage space.

Premier Safety Storage Rack

The new Premier Rack is an upgraded version of the standard rack that includes even more safety features:

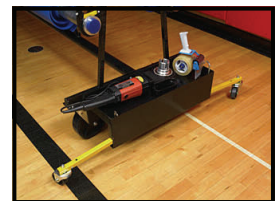

- **Six 8" diameter wheels** reduce risk of damage to floor boards by distributing weight load and allow for easier rack movement
- **Safety leg extenders** with two 3" wheels virtually eliminate the possibility of the rack tipping over
- **Storage trays** hold items such as extra rolls of tape or the power winder

Premier Safety Storage Rack

Storage space on trays keeps items off the floor and out of harm's way.

Safety Leg Extenders

Nissen EnviroSafe™ Safety & Competition Landing Mats

WHOLESALE PRICE LIST
EFFECTIVE: JANUARY 1, 2011

Safety & Competition Landing Mats

EnviroSafe™ landing mats are available in non-folding, single-fold and tri-fold designs in 14 colors (see below.)

Safety Landing Mats

4" mats are typically used for elementary ages, while our 8" and 12" mats are used for training, practicing, skill building and safe landings in non-standing positions. The tri-fold design easily doubles mat thickness.

Features:

- 1" color matched handles on long sides
- Mesh breather strips on long sides
- Soft impact absorption – 50 IFD
- 2" Velcro end flaps
- 18 oz. fire-retardant PVC-coated covering
- Available in 4", 8" and 12" thicknesses

Standard Sizes:

- 4' x 6'
- 4' x 8'
- 5' x 10'
- 5' x 12'
- 6' x 12'

Competition Landing Mats

In two thicknesses: 12cm & 20cm

Mohini Bhardwaj
2004 US Olympic Team Captain and Silver Medalist

1-1/2" extra-firm foam laminated to soft foam on the bottom provides a firm landing surface with underneath cushioning.

Features:

- 18 oz. covering
- 1" matching handles
- 4" Velcro end flaps
- Single or bi-fold design
- Mesh breather strips on long sides

Standard Sizes:

- 4' x 7'6"
- 5' x 10'
- 6' x 12'
- 6' x 15'6"
- 7' x 12'
- 7' x 15'6"
- 8' x 12'
- 8' x 15'6"
- 8' x 18'

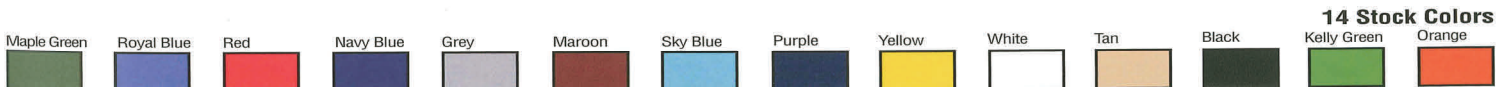

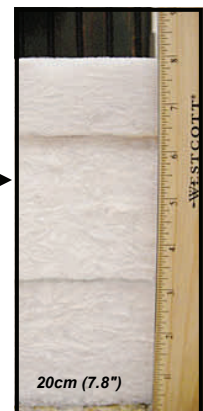

EnviroSafe™ Foam Inside

- 100% Toxin Free
- Zero VOC's or Off Gas
- Hypoallergenic
- Latex Free
- Fire Retardant
- Mold Proof

Made in the USA from 60% Recycled and 40% Virgin Material

NISSEN  **Wall Padding**

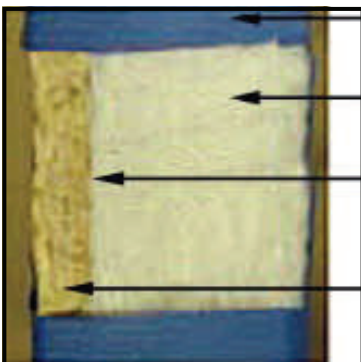

MAKE THE GREEN CHOICE

Make the “green” choice with our new **EnviroSafe™** indoor wainscot gym wall padding products. Our pad protection has the most trusted flame-retardant foam and covering in the industry – yet cost no more than other standard non-fire retardant foam panels. See for yourself!

- Our Class A fire-rated wall pads meet ASTM E84-08a standards. Made with 1" EnviroSafe™ and 1" Neoprene foams.
- **All EnviroSafe™ wall padding has flame-retardant foam and covering.** Meets CA Technical Bulletin #117.

Features:

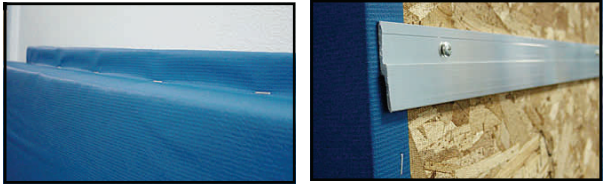

- 24" width x 60", 72",
- 84" or 96" heights
- 2" thickness in two foam options
- 2" Medium-Firm foam
- meets ASTM F-2440
- 2" Soft IFD 100 foam
- 1-1/2" Extra-Firm foam available
- Phthalate-free and
- antibacterial covering
- Available in 14 colors (see below)

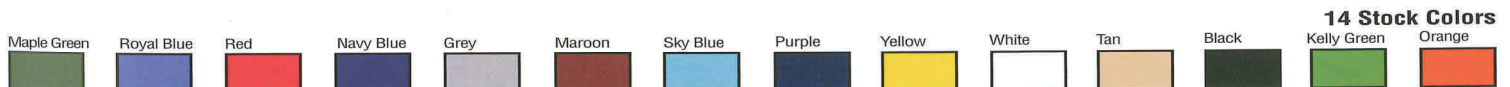

- 18 OZ. TOUGH PVC FIRE RETARDANT COVER
- ENVIROSAFE FOAM CUSHIONING
- WATER BASED ENVIROSAFE ADHESIVE-SOLVENT-FREE
- 7/16" UREA FORMALDEHYDE FREE BACKER BOARDS

Installation Techniques

- 1" nail margins or no nail margins
- 1" x 3" firing strips as a base for the 1" nail margins
- Z-clip mounting attachments on pad and wall allow for easy removal of wall panels for repair or replacement

- Folding, hanging wall mats attach with Velcro
- Easy to put up and take down

- Available in 2" Soft IFD 100, Medium-Firm or 1-1/2" Extra-Firm
- Velcro attachments allow easy installation for your multi-purpose facility. Give us your length and width.

Nissen® EnviroSafe™ mat and wall padding fabrics are tough!

Super tear-resistant, PVC-coated, phthalate-free shells with high UV, flame resistance and anti-bacterial formulations.

Our PVC-coated fabrics can take the most rugged indoor and outdoor wear. All indoor mats and wall pad coverings meet fire codes – including NFPA 701, CA Fire Marshall and UL. Many other vendors use 14 oz. and 18 oz. laminated fabrics, which tend to peel after extended use. Nissen fabrics are coated into one homogeneous layer of PVC and polyester – in either our 18 oz./sq. yd. deluxe or 22 oz./sq. yd. super deluxe weights. Plus, we offer many colors to match every need.

Foam & Fabric Dictionary

2" Soft IFD-100 Foam

This NEW 1 or 2 lb. density urethane-type foam is used for beginning gymnasts, light tumbling or as an exercise mat, as well as thicker versions for landing mats.

1.5" Extra-Firm

This 1.7 lb. density polyethylene-type foam offers firm, lightweight shock-absorption for the top recoil. Often used for high-impact activities like advanced gymnastics and martial arts. Our 1.5" thickness is excellent for heavier participants who tend to bottom-out.

2" Medium-Firm

This 4.2 lb. density bonded-type foam provides durability and safety for medium-impact gymnastics, exercise and wall padding. Good for semi-firm landings and stability, yet not as firm as our poly-type foams.

2.5" Extra-Firm/Soft Combo

This extra-firm foam is laminated to soft foam to provide a firm landing surface with a soft-cushion underneath to prevent bottoming out. Ideal for beginners of all ages learning to tumble.

DENSITY

Lbs. per cubic foot. (Example: 1.7 lb. density foam means 1 cubic foot weighs 1.7 lbs.)

IFD

INDENTATION FORCE DEFLECTION is a measurement of foam firmness and is independent of foam density. IFD is measured by indenting (compressing) a foam sample to 25% of its original height.

The amount of force in lbs. required is its ILD measurement. The more force required, the firmer the foam. Open-cell foam IFDs usually range from 10 IFD (super soft) to 100 IFD (very firm).

1.5" Extra-Firm

PHTHALATES

Chemical plasticizers used to soften plastics are continuously released from the products to which they are added. (Not environmentally friendly.)
