Eagle KK – 4 Finger Flat Glove Trainer

KK RHT	Right Handed Thrower	\$59.95/EA
KK LHT	Left Hand Thrower	\$59.95/EA
		MAP

Eagle KK Trainer – KK 4 Finger in the Valle trademark all white color! The Eagle KK 4 Finger combines the great practical benefit of a flat style training glove for both **baseball and softball players** that promotes the use during practice time of using two hands, but has the feel of a game glove with finger slots and flexibility to allow the fielder to be loose and comfortable. Allows the fingers to be relaxed and slightly bent as they are in a game glove. Does NOT force the fingers to be stiff and straight out, as a pancake training glove will do, which is an unnatural for them and when stiff and straight, it promotes the player to NOT be relaxed as he should be. This glove is all leather, extremely flexible so it simulates the feeling of catching a ball with your "bare hand", but has the leather and padding for protection. The soft leather on the palm gives a great feeling to the player and the glove having 4 fingers gives the easy flex you want when fielding the ball and has the same feeling of your game glove in that each finger has it's own stall and is separate from the other fingers, as apposed to a pancake style training "mitt". This training glove is excellent for "any" age player from tee ball to the professional ballplayer. Many pro players and college players purchase these gloves for their training. Make your training time the most productive it can be with the use of the Valle Eagle Training Gloves Series. Great training glove. Used to developing quick soft hands when practicing infield grounders or turning double plays. Teaches using two hands to field the ball. Available for right and left handed throwers.

The 2023 Eagle K47 (Size 7") in the Valle trademark all white color – Great for Baseball and Softball Players: This is a hybrid of the Eagle KK and Eagle 8. Flexible ready to go feel of the 4 finger, Eagle KK, and with the a pocket for fielding any type of ground ball or fly ball like you can with the Eagle 8, but with an even smaller pocket size for greater challenge and development. For the younger or older player that prefers the softer easier break in feel, the Eagle K47 is perfect for you. Eagle K47 has the Velcro Wrist Back for easy adjustment to whatever size hand you have. It's small, it's made to last, and it can be used for any infield drills, such as back hand, forward hand, double plays, etc. Before even getting to market, MLB teams have purchased the Eagle K47. If you visit our Instagram, you can see Toronto Blue Jays star shortstop Bo Bichette working on fielding drills with the EK47. Chicago Cubs, Detroit Tigers and others have already purchased the Eagle K47 for spring training. This training glove is not limited to just MLB players but is great for a youth, travel player, high school, college and all pro players. Practice makes perfect! To stay ahead of the game and your competition you need to constantly hone your skills. Soft hands, proper technique and hand-eye coordination are vital for a good infielder.

Eagle 9.75" with Strap Back Infield Trainer—Eagle 975S Series in the Valle trademark all white color – Great for Baseball and Softball Players. The Eagle series is made of the highest quality USA Steer Hide leather, and has USA tanned leather lacing. The Eagle 975S Series has the I-Web style with double lacing, easily adjustable velcro wrist back. Added cushion thumb support with additional palm padding and "double index pads" so whether a player wears his glove with one finger in each finger stall or likes to have two fingers in the pinky stall, he will have access to his index finger pad, for we now have the finger pad both over the index finger and middle finger on the shell of the glove.

The Eagle 975SWT training glove comes with built in weight to bring it to a weight equal to and sometimes heavier than most game size infield gloves. This additional weight now allows the player to not only benefit from the smaller size pocket for training to catch the ball consistently in the same part of the glove, but the additional weight also helps in strengthening the skills of the player & will help an infielder develop better control of their glove with increased pocket awareness.

Eagle 32" Catcher's Trainer with a Half Web

32HW RHT

Right Handed Thrower

\$239.95/EA
MAP

Valle Eagle T25 model in the Valle trademark all white color, with USA Steerhide leather. The Eagle T25 is crafted with quality USA Steerhide leather, major league quality USA tanned lacing, additional padding and the design and shape is what the pros have been asking for. This model, like all the Eagle series is built strong and can handle high level training drills. MLB organizations use this new T25 for receiving off pitching machines up to 90 MPH! The Eagle Series gloves are the best we've ever made. This training glove will help you to catch the ball with better mechanics. Quality built to last, with small size pocket to promote good catching habits for catcher's as they warm up pitcher's and use in all practice times. Catcher's need to have good ball transfer and focus when catching. This mitt will help the high school to pro player improve the key skills of being a good receiver.

Eagle Back Hand

EBH

\$29.50/EA
MAP

The Eagle Back Hand is the perfect companion for any of the Eagle training gloves, or even your game glove if your glove is fitting your hand too loose whether it be because your glove is older and has stretched out some or because you have a smaller hand and would like it to fit more snug to make it a more comfortable fit. The Eagle Back Hand can easily be put on any glove in seconds. It will wrap around your existing wrist back and with it's Velcro you just close it securely. Many younger players and also softball players who have game gloves that commonly come with Velcro adjustable wrist backs and in time, the Velcro wears out and they cannot secure it anymore and keeps coming undone. The Eagle Back Hand would be the perfect answer for you.

Eagle Glove Pad

EG PAD

\$29.50/EA
MAP

The Eagle Glove Pad is the perfect companion for any of the Eagle training gloves, and especially the catcher's training models. Placed inside the index finger slot of the mitt, it provides tremendous reduction in the impact of the baseball when training. Bone bruises are very common for catcher's because of the high velocity pitches they are receiving over and over again during a game or doing bullpen work, or training off a machine. Catching the ball in the very same spot time after time, will make the transfer of the ball from the mitt to the throwing hand, very efficient, but will also at times give bruising to the hand which is taking the impact repeatedly.

DRI-BALL® Within 30 seconds turn any water-soaked ball into a perfectly dry ball! **DRI-BALL®** is quick and easy to use for games and practice! For baseball, softball, football, soccer, tennis, volleyball or any other sport with a ball that gets damp, wet or even soaking wet!

- Simply place the ball into an air-tight container with the **DRI-BALL®** compound.
- Shake the container - 30 seconds later, remove your ball and it will be completely dry and ready to use, and without any residue.
- **DRI-BALL®** also extends the life of balls, which reduces replacement costs.

One **DRI-BALL** kit contains 2 (1¼ lb.) packages of the **DRI-BALL** compound.

One to two kits should last one season, including practices:

DB-KIT **\$95/Kit**

- For baseball after wet practices, place 8-10 balls in 3-gallon container with 1 package of **DRI-BALL**. Shake for 30 seconds. All of the balls will be dry, will not rot, and will not get heavy. The entire kit should last for a 25-game season if you use **DRI-BALL** 2 to 3 days per week and keep **DRI-BALL** containers air-tight at all times.
- For football & soccer, dunk muddy balls into water to wash off mud. Place in 5-gallon container with 1 package of **DRI-BALL** and shake for 30 seconds. Your ball will be clean and dry! Nothing else is this easy! Keep **DRI-BALL** air-tight at all times.
