**Typar® Geotextile Fabrics**

**TYPAR® GEOTEXTILE FABRICS**

TYPAR® 3151, 3201, 3301 Grey

Lightweight non-woven geo-textiles, thermally spunbonded from polypropylene, designed for separating playing surfaces from coarse drainage bases, when water flow is a primary function.

**TYPAR® 3151 GREY(3 ROLLS/PACK)** 1.6 oz./sq. yd. Our thinnest and most porous fabric, especially recommended for covering drainage base of baseball and softball infields to let fines pass through rather than plug fabric. Cover with at least 2" of sand before installing infield mix to prevent blinding fabric during installation and to provide a warning layer for the future: should the infield be deeply scarified or rototilled, the sand layer will be hit before catching the fabric.

**TYPAR® BIOBARRIER** is a long-term vertical root control system that consists of time-release nodules of trifluralin herbicide permanently bonded onto a permeable geotextile fabric. When strategically placed into the soil, it prevents damage from root encroachment into valuable surfaces long-term (minimum of 15 years) without harming trees or nearby landscaping.

**TYPAR® BIOBARRIER** is also a long-term horizontal weed control system. Placed on the ground like a landscape fabric and covered with up to two inches of stone, mulch or other cover material, the trifluralin in BioBarrier is slowly released from the nodules. The constant release of trifluralin from BioBarrier creates a narrow (approx. 2 inches) zone on either side of the fabric. Bio Barrier is effective because the zone of trifluralin extends into the stone, mulch or other cover material. Since weeds are unable to develop a strong root system in the presence of trifluralin, they are unable to survive when their roots reach the zone. Allow 4-6" overlap at seams. BioBarrier is more effective long-term (minimum 10 years) than any landscape fabric available.

# SOL-Aer® Winter Turf Blanket

## Silver Lace Coated or Uncoated Basic White

Introducing the next generation of winter turf protection. Combining a revolutionary non-woven co-polymer fabric with a proven heat-absorbing silver lace coating, SOL-Aer Turf Blankets provide improved insulation for winter-weary grass root systems.

With its ground-breaking non-woven co-polymer fabric and proven heat absorbing/reflection lace coating SOL-Aer Winter Turf Blanket is the best turf protector ever.

**Fabric:** A unique Non-Woven material that is composed of bi-component fibers: A polypropylene core sheathed in polyethylene means strength and durability, plus superior nighttime insulation.

**Silver Lace Coating:** Combines with good sunlight penetration to increase daylight warming and decrease nighttime cooling. Same lace coating as on competitive Radiant product.

**Fusion Welded Seams:** Eliminates sewing and allows this super tough fabric to be moved and walked on without damage.

**Light One-Piece Construction:** Easy to hand cut without fraying, making for easier installation, removal and storage.

**Mark-On Surface:** Allows magic marker coding for precise positioning relative to other panels, sprinklers, goal posts, etc.

**Insect Barrier:** Light, water, & air penetrate through, but this tighter-than-woven material disallows insects from burrowing thru.

**CHOOSE THE RIGHT CONFIGURATION FOR YOUR FIELD:**  
CHOICE 1. Silver Lace Coated or Uncoated Basic White  
CHOICE 2. No Edging or Vipol® Edging with Grommets

### ADDITIONAL FEATURES and BENEFITS

- Vipol Edging adds strength and breathability.
- Non-woven fabric provides additional thermal insulation.
- Provides frost protection and moisture retention.
- Promotes earlier and more rapid germination and greening.
- Standard Sizes: 10'x20', 20'x50', 50'x60', 60'x90', 70'x90', 90'x90', 80'x110'
- Round top flat stakes included.
- Custom sizes and cuts are readily available.

With its ground-breaking non-woven co-polymer fabric and proven heat absorbing/reflection lace coating SOL-Aer Winter Turf Blanket is the best turf protector ever.

Armor Mesh and Blanket-Style Football Sideline Turf Covers

## ARMOR MESH SIDELINE COVERS

Heavy-duty woven mesh—14 oz./sq.yd.  
 Extrusion coated yarns—outstanding wear (abrasion) resistance  
 Allows air and water passage—does not absorb water  
 Excellent tear strength and burst strength properties  
 13 colors: Dark Green, Royal Blue, Red, Light Grey, Kelly Green, Maroon, Navy Blue, Black, Purple, Orange, Carolina Blue, Yellow, White  
 Comes with grommets every 3' on all 4 sides to stake to ground  
 Ideal for customizing with lettering or logos  
 5-Year Warranty.
