\$1.96/SF**PLEASE NOTE:**

Synthetic Turf is normally rolled face out. No charge to "reverse roll" cut pieces with turf faced in—which makes it easier to install—doesn't need to be flipped over.

There is a \$50 per piece cutting charge. This includes length and, if necessary, width as well as pre-trimming the scrim fabric along edge and reverse rolling so that each piece will unroll with turf side up. For full rolls, there is a \$50 charge for pre-trimming & reverse rolling.

If gluing to concrete, use Henry's 663 glue from Home Depot if 65° or more. For 55°+, use Nordot 34-G or Turf Grip. If installing over compacted aggregate, you need to spike perimeter and tape (12" w) & glue seams. Check current pricing per quantity needed. If installing over macadam, loose lay with 2-3 lbs. sand to weigh the turf down, plus tape & glue seams.

For Batting Tunnels, all the above with foam backing are heavy enough to not be glued or spiked, but adding 2-3 lbs. sand per square foot is recommended for more weight to prevent shifting.
