---	---

**BEAM CLAY® RC Track Mixes** are blended, pulverized and screened.

We can make any ratio you want (using black, grey, red, orange, brown, tan, or white clays blended to your specifications or we can supply less expensive raw clay freshly dug from the pit, but we have found **BEAM CLAY® RC Track Mixes** to be excellent mixes for RC Tracks. Freshly dug clay is clumpy, much harder to work with, and will not perform as well as the above mixes.
