

BEAM CLAY® BMX / Motorcross Jump & Track Mixes are pulverized, blended, and screened.

We can make any ratio you want (using black, grey, red, orange, brown, tan, or white clays blended to your specifications or we can supply less expensive raw clay freshly dug from the pit, but we have found **BEAM CLAY® BMX / Motorcross Track Mix** to be an excellent mix. Freshly dug clay is clumpy, much harder to work with, and will not perform as well as the above mix.

Also, available are our **BEAM CLAY® BMX / Motorcross Jump & Track Mixes** using either red, black, grey, tan or white 3/16" minus crushed aggregate with either a red, black, grey, tan, or white clay binder or **STABILIZER®** binder. The stabilized mix is two steps down from an all-weather track that is very firm yet resilient with excellent drainage yet a loose top surface. We also have polymerized clay that repels water yet stays resilient. The polymerized mix is one step down from an all-weather track that is very firm yet resilient and repels water.

Natural Clay Surfacing..... 2

Crushed Aggregate Surfacing 3

Infield Mixes..... 4-5

BMX / Motorcross Jump & Track Surfaces**BEAM CLAY® BMX & MOTORCROSS JUMP CRUSHED AGGREGATES**

Available in 3/16" minus Burgundy Red, Grey, Tan or White aggregates blended with either a 20% **Beam Clay® Binder** for smoother surface, or a 5% **Beam Clay® Binder** for a somewhat crunchier surface, or "**Stabilized**" with **Stabilizer®** a natural organic binder at rate of 15 lbs. per ton for an even firmer, yet more resilient surface—each with excellent drainage and resistance to erosion. Excellent natural surfaces for walking paths, jogging trails, driveways, or patios.

Easy to maintain: Recommended maintenance is to scarify and roll each spring. Otherwise, drag mat as needed to maintain smooth surface. Recommended depth is 1" - 3" depending on your base. If poorly draining soil, stabilize base first with 3/4" minus road stone.

3/16" Red, Grey, Black, White or Tan Crushed Aggregates with Natural Beam Clay® Binder

One cubic yard weighs approximately 2,700 lbs. in red, approximately 3,240 lbs. in grey, black white or tan, plus add 20% for compaction. Each 1" compacted requires approximately 5 tons per 1,000 square feet for red, 6 tons for grey, black, white or tan.

		BULK TON		50 LB. BAG Up to 50/pallet
Burgundy Red with 5% Beam Clay® Red Binder	BMX-R5-BULK	\$79	BMX-R5-BAG	\$9
Burgundy Red with 20% Beam Clay® Red Binder	BMX-R20-BULK	\$109	BMX-R20-BAG	\$10
