Racquet Sports Are Thriving

Look around. The sound of the ball striking the strings, the distinctive pop of the pickleball paddle, the energetic thwack of the padel wall — it's louder, stronger, and more exciting than ever before.

We are witnessing an unprecedented **explosion in racquet sports**. Tennis is revitalized, pickleball is redefining community, and padel is charting the future of social competition.

This growth isn't just about numbers; **it's about opportunity**. It's about packed lesson calendars, thriving memberships, and the challenge of building and maintaining world-class facilities. It's clear that racquet sports are thriving.

We Are Built for This Boom

For ninety years, Har-Tru has been synonymous with the finest places to play. Today, that legacy means evolving from the most trusted name in clay to being the essential support system for every player, coach, facility owner, and member of the maintenance crew.

We are actively investing in your success: bringing globally proven performance with Proflex® hard courts, pioneering the next wave of facility revenue with Orange Padel, and consistently providing the equipment and service that you depend on.

This catalog is more than a collection of great products — it's your roadmap to growth. Let's build the future of the game, together.

Tennis

87 Million
Participants
Worldwide

Tennis is projected to maintain a steady growth, with the global participation exceeding 87 million in 2025.

Pickleball

50 Million
Participants
Worldwide

Projected U.S. pickleball players alone could reach 25+ million by 2027. Growth is accelerating across Asia-Pacific and Europe.

Padel

30 Million
Participants
Worldwide

Global padel court count is over 50,000 in 2025, with the projections reaching 70,000 courts by 2026, and 81,000 by 2027.

BUILD ON PLAY ON

A Global Hard Court Standard Arrives in the USA

Introducing Proflex,[®] the globally trusted surface engineered for performance and powered by UK-based Surftech Surfaces. Proflex is not just a coating — it is a precision-built system proven at the highest levels of the game.

WHY PROFLEX?

- **Proven:** The official surface for elite international tournaments, including the Davis Cup and ATP 500 events.
- **Engineered:** Built with advanced chemistry for predictable pace, reliable bounce, and exceptional player comfort.

See pages 22-25 for details.

- **Exclusive:** Har-Tru is the sole U.S. and Canadian distributor, ensuring you receive world-class materials backed by Har-Tru's unmatched service.

A high-performance, tournament-grade hard court that performs season after season.

See pages 4-5 for details.

The Padel Court Explosion

The fastest-growing racquet sport in the world demands a world-class court. Har-Tru meets this demand by becoming the exclusive U.S. distributor of Orange Padel International. Orange Padel courts are the product of over 25 years of design and engineering excellence.

WHY ORANGE PADEL?

- **Unmatched Durability:** Featuring robust, galvanized steel frames and hybrid pillar systems built for heavy usage and all climates.
- **Spectator Appeal:** Choose the Pano Supreme model for crystal-clear, panoramic views that maximize fan engagement.
- **Invest With Confidence:** We don't just supply courts; we play the game, study the market, and have the expertise to guide your padel investment every step of the way.

ORANGE PADEL: COURTS BUILT TO PERFORM

Har-Tru is the exclusive U.S. and Canadian distributor of Orange Padel, bringing you the next level of padel court engineering.

SUPREME: THE ULTIMATE HYBRID COURT

The Supreme is the latest generation hybrid padel court, defined by its **extreme strength** and state-of-the-art design. Manufactured entirely with **premium galvanized steel**, its unique pole-and-frame construction ensures exceptional durability. This robust, rigid structure is the perfect choice for any climate — performing flawlessly in indoor, semi-covered, or outdoor installations worldwide.

PANO SUPREME: A WORLD-CLASS VIEW

Robust, strong, panorama court with a **spectacular view** for spectators and players. Unique state-of-the-art design, engineered to meet all of today's requirements and beyond. Extra-strengthened steel structure with electro-welded, robotized steel mesh. This court is manufactured with a keen eye on key details provided by players and clubs.

The Orange Padel Pano Supreme is based on the World Padel Tour model with full attention to player safety and optimal player satisfaction. The court complies to the standards of the U.S. and International Padel Federation and is in compliance with the World Padel Tour guidelines. Its spectacular design makes it a **real eye-catcher** in your club!

Accessories

Engineered for Safety and Play

ORANGE PADEL GLASS

We use certified **10mm** or **12mm tempered glass** (2m wide x 3m high) on the back and sides of the court. To maximize durability and minimize breakage risk, each panel is installed on a **5mm neoprene layer** that absorbs vibration. All glass rigorously complies with the **UNE EN 12150-1 standard**, guaranteeing maximum quality and a safe playing experience.

ORANGE PADEL COURT LIGHTING

Our LED court lighting meets the highest quality standards for both **lux quantity and uniformity** across all playing areas (net, backdrops, sides). Depending on the court's use, our fixtures cover all types indicated in the European standard for sports lighting, UNE-EN-12193:2020, ensuring **optimal visibility** for every level of play.

ORANGE PADEL ARTIFICIAL TURF

Our turf systems are manufactured by world-leading suppliers (such as Mondo, Domo, and Real Turf) and feature **fibrillated monofilament** or **curled/texturized fibers**. All artificial turf systems comply with ISO9001 and 14001 standards, and meet stringent **FEP and FIP regulations** for high performance and quality.

FIBRILLATED

**CURLED/
TEXTURIZED**

Scarifiers

Tow Scarifier 146-3413

4' W, 2 rows of nails, 61 nails per row

Heavy-duty tool for loosening court surfaces. This model is 4' wide with two rows of case-hardened nails. It is heavy enough to allow the nails to really penetrate the surface. This 48"-wide, heavy-duty tow model scarifier is truly a workhorse for loosening the top surface on Har-Tru courts. It is especially good for indoor courts and sunbaked southern courts that have excess calcium buildup. 144 lbs

- Sized to fit between the alley tape
- Levered wheels lift unit over tapes so tapes can be left in place
- Adjustable tow hitch fits most utility vehicles
- Adjustable steel rails lower nails as they wear down
- Removable steel plate allows for easy nail replacement
- 40D nails: $\frac{3}{16}$ " diameter x 5" L
- Federal nails for Scarifier

146-3415 Replacement Nails 50-lb Box

Lute/Scarifier

146-3047 30" (5 lbs) **146-3420** 48" (6 lbs)

The Lute/Scarifier is two tools in one, made of aluminum for scarifying, leveling, and removing loose granules. It is strong and sturdy, yet light enough to use all day, and excellent for spreading new material during top dressing. The concave shape of the 30"-wide blade allows the tool to "float" along the surface, without grabbing or digging in.

Replacement Blades

146-3030 30" **146-3048** 48"
146-3428 Lute Corner Brackets and Hardware

Court Devil 146-3409

Designed to agitate the court surface without removing or damaging existing line tapes. It also helps prevent and break up mineral deposits, mold, algae, and fungus that tighten the court surface. It scarifies the court with circular steel blades mounted on free-turning axles. For best results on the court, add no more than 50 lbs of additional weight. Weight: 110 lbs; width: 48"

SCR01BLD
Court Devil Replacement Blade Assembly

Court Devil Jr. 146-3408

This smaller, hand-model Court Devil is designed for maintaining areas along court perimeters and beneath the net line. It is also great for loosening localized hard spots. 71 lbs

SCR02BLD
Court Devil Jr. Replacement Blade Assembly
321-3100
Individual Replacement Blade

Spreaders & Gator Rakes

Gator Rake Pro 72" Tow Model
146-3684 Standard Tines
146-3687 Staggered Tines

This contractor-grade tool is the heaviest and most durable rake on the market, making it ideal for scarification, top dressing, and aggressive daily maintenance. Weight towers (sold separately) allow you to add weight for deeper surface penetration. 30 lbs

TruFlow Topdressers

24"

36"

These top-dressing units offer unmatched performance in distributing HAR-TRU® as well as rubber and other materials for synthetic grass, natural turf, and running tracks.

The 24" hand model will hold up to four 80-lb bags of HAR-TRU® and the 36" tow model will hold eight 80-lb bags. Simply bolt on the handle and you are ready to start your preseason renovation.

 Version, Side Attachment

Gator Rake Replacement Tines

- 146-3696** Standard Tine Cartridge Pro Model
- 146-4696** Staggered Tine Cartridge Pro Model
- 146-3708** 7" Tines for 72" Rake (89 Included)
- 146-3709** 4" Tines for 24" Rake (29 Included)
- 146-3712** 4" Tines for 72" Rake (89 Included)

72" Hand Model Gator Rake
146-3686

The 72" Hand Model Rake brings the court back to life after heavy play. It's just the right size and weight for members to pull around the court between matches. 16 lbs

Tennis Lines & Nails

Har-Tru Designer Tape 109-602P Punched

109-602U Unpunched

This Designer Tape is the best line tape you can buy for your court, with its sure-spin feature and unique raised pattern specifically designed to allow consistent ball spin and speed at any angle the ball strikes the tape. It offers easy cleaning, long life, and stability, and will not yellow with age. The webbing is made from the finest synthetics available, and has a pure PVC coating. It is available with or without preformed nail holes. 490' per roll

Har-Tru Classic Tape 109-601P Punched

The same top-quality webbing and vinyl coating used in our Designer Tape is also the basis for our Har-Tru Classic Tape. It has an even-textured, rubberized coating that combines good ball bounce, long life, and easy cleaning. Available with preformed nail holes. The Har-Tru Classic Tape represents affordable quality in a line tape. 490' per roll

Har-Tru Herringbone Tape 109-603P Punched

109-603U Unpunched

The Har-Tru Herringbone Tape is designed to ensure consistent ball spin and speed at any angle the ball strikes the tape. It is easy to install, made of long-lasting vinyl, meets specifications, cleans easily, stays white longer, and has preformed holes for nailing ease. It has the same long-life quality as the Har-Tru Classic Tape, but with added texture. The balance of quality construction and player benefits makes the Herringbone Tape the best tape value. 490' per roll

Tape Stretcher 150-3040

The Tape Stretcher ratchet simplifies the installation of permanent line tapes with its user-friendly features. It boasts a 2"-wide slot that accommodates tape for swift and effortless application, making it a one-person job. The inclusion of a leather pad and support strap ensures that the ratchet maintains the tape's straight and taut positioning just above the surface, facilitating secure and stable nail placement.

Tennis Lines & Nails

Nail Coils

110-3462

Galvanized Duo-Fast Nail
Gun Nails, 2 1/4" (Case of 7200)

110-507 25-lb Box

- 2 1/2" aluminum nails (large head)
- 8 lbs per doubles court
- For above-ground irrigated HAR-TRU courts

110-508 11-lb Box

110-509 25-lb Box

- 3" aluminum nails (large head)
- 11 lbs per doubles court
- Great for subsurface-irrigated courts

110-510 25-lb Box

- 2 1/2" copper nails (large head) for cinder-base courts
- 25 lbs per doubles court

Growth Control

Citrine-Plus®
122-3456

Citrine liquid algaecide is for use in HydroCourt® water control boxes only. The application rate is 7 ounces per each water control box per each application. Applications should be made every four months. The recommendation is for 1 gallon of Cutrine per court per year to deliver the best algae control available. Not available in all states. Cannot ship to the following states: **AK, CA, CT, HI, ID, MA, ME, MN, MT, NH, NJ, NY, OR, RI, VT, or WA.** **Subject to change.**

Product has not been tested on HyQ® Courts and is not recommended for HyQ Courts at this time. For HyQ Courts, we recommend using AlgaeBlaster.

Drop-ship only

AlgaeBlaster
162-1000

AlgaeBlaster is a liquid algaecide that contains copper sulfate. Dilute 4 ounces of AlgaeBlaster in 1 gallon of water. Use a watering can or weed sprayer to apply around the perimeter of your courts and other problem areas that show algae growth. One 2.5-gallon container should cover 3-4 courts. Apply monthly during the rainy season.

Sold only in AL, AR, FL, GA, LA, NC, OK, SC, TN, TX, and VA.

Sold in box of two 2.5-gallon containers

Drop-ship only

HAR-TRU® HyQ COURT

The Ultimate Clay Court Experience:

PRECISE, CONTROLLED, EFFICIENT

HyQ® is a revolutionary irrigation system that uses digital technology to continually monitor and adjust the water in your court. Precise, controlled, and efficient — the HyQ system is the foundation for the world's most advanced clay tennis courts.

Zero downtime for sprinkling

You never have to close a court while you wait for sprinklers. Your court maintains a consistent playing surface throughout the day.

Incredibly accurate digital adjustments

Adjustments are made to within 1/10" — you simply press a button to adjust up or down. Digital sensors easily and accurately read the water level.

Mobile app — control from anywhere

The HyQ mobile app allows you to remotely monitor and adjust your court with complete confidence — anytime, from anywhere in the world. (System must be connected to Wi-Fi in order for the app to work.)

Uses up to 60% less water

Economical in every way, HyQ decreases water usage while simultaneously making it easier and more efficient to control.

Rollers

Small Hand Roller
127-3044

Perfect for the club that needs touch-up work around court edges, patching of low spots, etc. The drum size is 18" x 24" and can be filled with water for a total weight of 320 lbs. The unit is all steel and comes with a scraper bar for removing any buildup on the drum. This roller is a good companion for your heavy-duty court roller. 1-year warranty

Split-Roll Hand-Tow Roller
127-3045

This 24" x 24" hand roller is improved to give the same split-roller action as our more expensive rollers. Dual drums can be water-filled for added weight, yet can turn on the court without damaging the surface. This is the only hand roller that can be towed in ovals with its dual-purpose handle. A scraper brush is included for removing any buildup on the drum. Good roller for those on a tight budget. 1-year warranty

Tow Roller

127-3073 4' Roller

The Tow Roller model is an easy-to-use alternative to the power roller. It can be pulled by a golf cart, lawn tractor, or utility vehicle and still offers the same rolling speed and convenience as the power roller. This unit can be upgraded to a motorized roller by adding the power head of the CourtPac Pro, as shown on page 14. It comes with a towing tongue, hitch pin, urethane blades, and front and rear court brushes. Shown here with optional auxiliary wheels, it is available in 4' width and has a 1-year warranty.

Auxiliary Wheels

128-3038 Aux Wheel Kit for Tow Roller

128-3041 Aux Kit for CourtPac Pro Roller

Auxiliary wheels have been designed to ease roller movement over difficult terrain. Leverage handles raise or lower the wheels, lifting the roller off the ground to prevent damage. A heavy-duty locking pin secures the wheels in position. The auxiliary wheels will increase the life of your roller and make it much easier and quieter to use when difficult transporting is required.

Line Sweepers

The Line Master

148-3042 Fine

148-3042C Coarse

148-253 Hardware Pack; includes bushings, springs, and fasteners

Features include a curved handle, all-aluminum construction for rust-free outdoor use, positive locking brush action, and a perfectly textured brush for an easy-to-use, yet firm, brushing action. The angle allows the brush to dig in and remove those hard-to-clean areas that require more pressure. Brushes available with fine or coarse bristles.

Line Scrub 148-3058

The heavy bristles break up the HAR-TRU® that gets caked on the tape. The unique aluminum handle gives the needed leverage to make the job easy. New swivel design makes the Line Scrub more ergonomic and low maintenance.

148-3412
Replacement Line Scrub Brush for Swivel Unit

Replacement Brush Assemblies

148-3048 Fine

148-3048C Coarse

Complete replacement brush assembly for The Line Master with a synthetic brush, axle with nylon sleeves, and springs. Easy to install and requires no special tools. Available in fine or coarse.

Aussie Clean Sweep

136-3033 8' Model

136-3053 4' Model

This unique combination tool from Australia helps pick up and remove leaves, pine needles, stones, ball fuzz, and other debris found on your court while grooming the court like a drag brush. Redesigned with a raised lip to hold the debris in place for a cleaner court. Available in 4' and 8' widths.

Drag Brushes

Stainless-Steel Bristle Drag Brush, 6'

Redesigned to allow replacement of bristle blocks. The steel bristles excel at agitating the surface of hardened indoor and outdoor courts with subsurface irrigation. They help break up algae and prevent its formation. Stainless-steel bristles reduce rusting and increase this product's durability. 30 lbs

- 136-3660** Steel Hand Model
- 136-3661** Steel Tow Model

Replacement Parts

- 136-3674** 6' Fine Bristle 4 1/2" x 6' L
- 136-3675** 6' Coarse Bristle 4 1/2" x 6' L
- 136-3801K** Replacement Handle Kit (Contains right & left handle & connector with grip)

ClayTech® Grooming Brush

- 136-253** Hand Model
- 136-254** Tow Model

The ClayTech Grooming Brush is designed to groom the ClayTech surface as well as move the infill particles into a consistent pattern, filling in crevices and smoothing the surface. The extra coarse, thick bristles scrape and clean the membrane fibers so that infill buildup on the fibers does not occur. This grooming tool leaves the ClayTech surface clean, smooth, and consistent. 16 lbs

Tow Handle

136-3668 | Tow Handle U-Joint and Hardware

The Tow Handle includes right and left handles, a U-joint, and an S-hook. This setup allows the Drag Brush to be pulled at the proper angle and allows for easy attachment to a utility vehicle. Special knuckle action helps prevent breakage if the brush bumps the fence or net while in tow. 8 lbs

- 136-3723** U-Joint Kit for Tow Model Drag Brush

Own clay the EASY way

The performance of clay without all the maintenance.

Combine the comfort of clay with the easy maintenance of a hard court

- Easy, cost-efficient, minimal maintenance
- No painting, no cracking, no coating
- Installs quickly over existing hard courts
- Excellent solution for crack mitigation
- All-weather playability: wet, dry, hot, or cold

Play every day — with greater skill and fewer injuries

- Develop better movement, footwork, and balance
- Learn to slide and construct winning shot sequences
- Play more frequently without pain or injury

ClayTech® courts are easily installed over a concrete or asphalt base in as few as 3 days.

Precision Performance Power

Engineered for professional play. Hardcourt surfaces and force-reduction systems from Proflex® are made with tested precision and quality. Every product is engineered for consistency and durability, giving you results you can rely on, every time. Find all the tools to install and maintain your hard courts here.

Squeegees, Rain Shuttles, & Brooms

COURTMASTER™
All-Aluminum Rain Shuttle
143-3287

Redesigned as a superior all-aluminum court drier for more durability. Features improved casters for better mobility and operation, plus a better-functioning blade. Easy to use and store. Will not scratch or mar courts. 5'-wide sweep. 13 lbs

- 144-3288** Replacement Blade
- 144-3286** Replacement Wheels

Super Squeegee

The Super Squeegee is a contractor tool specifically designed to spread acrylics and adhesives during hard court construction and resurfacing. It is the first such squeegee that provides the following advantages:

- An optional back shield, allowing users to simulate different durometers of rubber simply by adjusting the flex of the rubber
- An easily adjusted handle bracket and blade to accommodate different angles
- A 6' handle with adjustable rubber grips for added feel and control
- 50-durometer rubber blade
- A solid mounting bracket to eliminate chatter and stabilize the surface blade

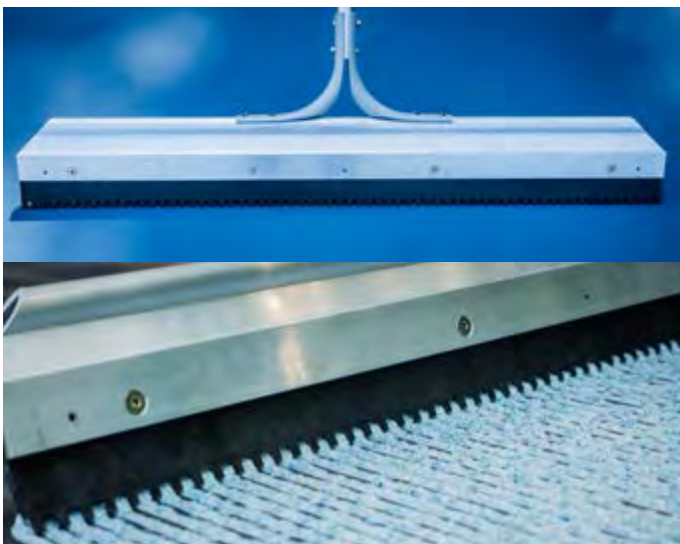

- 143-232** 36" Squeegee; 9 lbs
- 143-246** 36" Squeegee With Adjustable Back Plate; 11 lbs
- 143-210** Squeegee Corner Bracket and Hardware (includes 2 brackets)
- 144-3460** 36" Rubber Blade; 50 Durometer

9-Jet Water Broom
142-3055

Made of aircraft structural aluminum, eliminating rust and corrosion.

- Durable neoprene wheels will not mark surfaces
- Guards protect brass jets from wear
- Washes up to a 4' path with one pass
- 42" L
- Anodized blue
- 7 lbs

Har-Tru Notched Squeegee
143-250

Har-Tru Notched Squeegee is a contractor tool specifically designed to spread the base coat of a cushioned court. The square-notch pattern on the blade is ideal for applying the base evenly with appropriate thickness.

- 144-3470** Notched Replacement Blade

PERFORMANCE TENNIS COURT INSTALLED IN HOURS

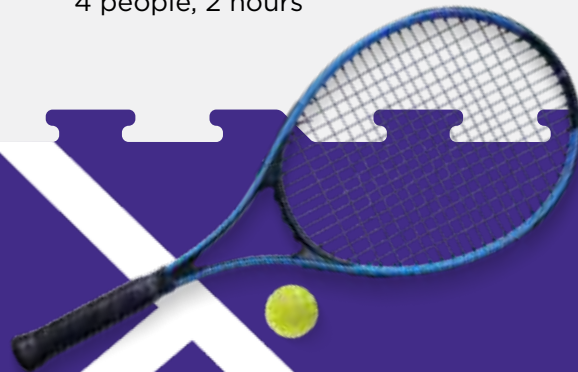

The Tennis Flex Pro is a **portable, comfortable, high-performance indoor tennis court** that can be set up in as little as two hours. The court comes ready for temporary or permanent installation for a wide range of facilities, from clubs to convention centers.

This professional-grade court is made with interlocking tiles, and coated in a high-performance Proflex® surface. Consistent ball bounce, speed of play, and foot traction are all rated excellent. The Tennis Flex Pro is **specifically designed for added force reduction and energy restitution** — letting you play longer, more comfortable matches with less stress on your body.

Installing a high-performance indoor tennis court has never been easier.

- + High Performance
- + Portable or Permanent
- + Made with 62% Recycled Material

Straightliners & Water Removers

Straightliner

150-3480

Standard Straightliner

150-3471

Straightliner Plus

The Straightliner frame is constructed of black powder-coated steel and the tape holder is non-corrosive aluminum. Other features include smooth, non-marking black rubber rollers and comfort grip black rubber handles. The removable 9" pointer guide screws to the front of the base frame. Masking tape is not included. 10 lbs

The Straightliner is the fastest and easiest tool to mask court boundaries for painted lines. The tool lays parallel masking tape lines precisely and evenly up to 1 ½", 2", 2 ½", or 3" apart. Can use 1"- or 2"- wide masking tape. Includes two easily changeable tape guides to accommodate tape widths.

The Straightliner Plus is the fastest and easiest tool to mask curves, circles, and straight lines for court boundaries. The tool lays parallel masking tape lines precisely and evenly 1 ½", 2", or 2 ½" apart. For use with 1"-wide masking tape.

Super Sopper

143-300

7-Gallon Mackerel (*Drop-ship only*)

143-301

14-Gallon Dolphin (*Drop-ship only*)

The Super Sopper takes care of total water removal by lifting water from a court using a sponge-covered barrel and straining it into the center of the porous barrel, where it is held until emptied. The Super Sopper is perfect for courts that puddle in low areas. It can be used on both hard courts and HAR-TRU® clay courts. Replacement sponges available.

144-3512

Mackerel Replacement Sponge

144-3519

Dolphin Replacement Sponge

Seamless Rol-Dri 143-243

The revolutionary Rol-Dri water remover has a unique "rolling seal" action that continually squeezes water ahead of the roller. Standard size is 36". Weight is 8 lbs. It can be used on both hard courts and HAR-TRU® courts.

143-208

Seamless Grey Replacement Foam Roller

COURTMASTER Royale™ Sweep 143-3153

Great for removing water from your court surface.

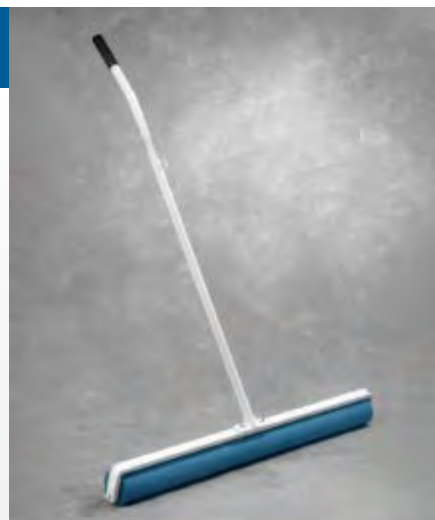

- All-steel, powder-coated white frame
- Comes with 4" blue PVA foam roller
- Also works with 2" PVA foam roller
- Works on any hard surface with no scraping or damage to court
- Produces a 36" sweep that squeezes water ahead of roller unit

144-3151

4' Diameter Blue Replacement PVA Foam Roller With Spacers:
Replacement Roller for Both 143-3151 and 143-3150

PICKLEBALL 3 WAYS

PROFLEX PICKLECOURTS

Proflex® Picklecourt Basic provides a reliable, economic solution designed for consistent performance and long-term player comfort. Proflex® Picklecourt Competition delivers superior comfort, resilience, and play consistency in a high-performance polyurethane surface designed for recreational and competitive levels of pickleball.

Durable Design: Acrylic system delivers a non-slip surface with strong resistance to wear and weathering.

Advanced Coating System: Finished with Proflex® Supreme Topcoat, a water-based polyurethane that offers exceptional adhesion, color retention, and superior durability compared to acrylics.

Reliable Performance: Engineered for consistent ball response and grip, suitable for both conventional and wheelchair pickleball.

Eco-friendly: Constructed using water-based polymer coatings for reduced environmental impact.

Pickleball Court Lines & Scorekeepers

Permanent Blended Lines 108-3679

Our permanent lines can be used for 10 & Under or pickleball. They are dark green in an effort to blend into the court surface, making it easy to move from tennis to 10 & Under or pickleball. 200' L x 2" W

Permanent Pickleball Line Tapes 108-3680

2" with punched
herringbone design

Made with the same high-quality materials as the tennis line tapes. With the herringbone design and punched for your installation convenience.

PICKLEBALL ON CLAY

YES, pickleball can be played on clay! You'll enjoy all the fun of pickleball with the **health benefits** of playing on clay — a cooler, soft, sliding surface that reduces common injuries.

Pickleball on clay provides a **different option** for the sport, and in some cases preserves and enhances the clay court a country club has invested thousands of dollars to build.

Depending on your court design, your contractor can transform your one tennis court into three or four clay dedicated pickleball courts, or combination courts.

PICKLE FLEX PRO

We've developed an entirely new type of court for pickleball. Made with a cushioned base and coated in vibrant Proflex colors, the Pickle Flex Pro court provides comfort, safety, and performance.

The Pickle Flex Pro is a **moveable hard court** that can be set up and taken down quickly and easily — or installed permanently — allowing you to adapt your space for other activities as needed.

The court offers a remarkable combination of speed, ball rebound, and comfort. You can expect a **consistent** and high-quality playing surface every time you step onto the court — wherever you set it up!

LoveOne Pickleball Scoreboard 140-3503

Manufactured from high-quality polymer plastic that is built to last. Keeps scores for both teams and is easy to read.

Can be used to score games such as bocce, cornhole, volleyball, badminton, and many more.

Mounting bracket and indicators included.

EZ-SCORE™ Pro-Set 139-3473

The EZ-SCORE™ Pro-Set model was developed at the request of high school coaches and tennis product retailers for teams that don't play multiple sets, but one pro set.

The EZ-SCORE™ Pro-Set comes in its own nylon carrying case, with a Velcro™ seal. It fits snugly on the tennis net, out of bounds. The white on black and black on white numbers, 0 - 9, can be clearly seen from both ends of the tennis court and by both opponents. The EZ-SCORE™ Pro-Set comes with a carrying case that fits easily into your tennis bag to go with you wherever you play.

The EZ-SCORE™ Pro-Set is very convenient and makes a great GIFT!

Court Valets, Cooler Stands, & Accessories

IMPROVING THE INDOOR PLAYING EXPERIENCE

Sports Interiors has 30+ years’ experience owning, managing, and helping athletic facilities to improve the indoor sports playing experience through implementations of our LED Lighting System and Liner System that we apply to ceilings and walls. We have conducted hundreds of implementations across the country where Sports

Interiors leverages its experience in the construction industry with our project management expertise to deliver an efficient implementation process. We are focused on delivering quality results for your facility renovations or new construction projects that are efficient, cost-effective, and allow for minimal disruption to day-to-day operations.

The 4 Key Areas to Consider at Your Facility

Lighting

Are your current lights bright enough? What are the light levels?

Liner System

A highly reflective and durable liner can improve the aesthetics and efficiency of your facility.

Implementation Process

How long will the installation take? How much work will your provider offer? How much will be left to you?

Tennis Surface & Court Supplies

How recently were your courts resurfaced? Are you in need of new tarps and nets?

Sports Interiors works across the United States with clubs and facilities of all sizes and budgets to improve the indoor sports experience.

Comfort on the Court

We have a variety of seating choices to round out your court. It doesn't seem like many players sit down on change-overs, but the moment seating isn't available, it's sorely missed for that occasional shoe tie or as a place to put your gear. We offer a range of long-lasting, attractive designs.

Benches

**Courtsider Court Bench
130-3230**

This is the third generation of our Courtsider, with added comfort and strength. Weatherproof, lightweight, and ideal for courtside, poolside, patio and golf tee area, and public or private parks, with five vertical "I-Beam" supports and 100% solid PVC coloring compounds used throughout. The best UV-inhibiting, fade-resistant materials available are used in the compound. (If subjected to year-round intense sunlight, as in Florida and other southern states, some fading may occur over time.) Bolt holes in bench legs secure it to solid surfaces for theft prevention.

Umpire Chairs

Premier Tennis Umpire Chair

132-3901GN (Green) | **132-3901BZ** (Bronze)

The Premier Tennis Umpire Chair has been designed to meet ITF (and USTA) tournament regulations worldwide. Manufactured in the USA and built for both indoor and outdoor use, the Premier Tennis Umpire Chair has an industry-leading 3-year warranty.

The heavy-duty, all-weather components include a premium-grade aluminum frame with rounded corners for safety, durability, and comfort. The frame is powder coated with a durable acrylic finish that will provide years of service and a long-lasting good look. The seat, steps, and platform are all constructed of high-grade HDPE poly lumber for strength, durability, comfort, and low maintenance. Solid to the core, UV protected, and virtually indestructible, our poly lumber is made in the USA and is 100% recyclable, which means a healthier environment for you and the rest of the world. Weather-resistant stainless-steel hardware is used throughout.

Our spacious 22"-wide contoured seat and oversized armrests were designed to provide all-day comfort. Oversized heavy-duty rubber feet provide safety and stability on both hard courts and soft. Built with quality throughout, the Premier Tennis Umpire Chair will provide years of service and stand the test of time.

Available in green or bronze frame. Assembled dimensions: 61" L x 30" W x 92" H. Seat height: 72". 100 lbs

We also offer a full line of options specifically designed for the Premier Tennis Umpire Chair. They include an Umbrella Kit, Tilt n' Roll Wheel Kit, Drink/Phone Holder, and Chair Cover.

The Lobster Advantage Elevates Your Game

Leading the industry with innovative ball machines since 1971

Tennis Ball Machines

The Phenom

- Electric-powered
- Ideal for teams, clubs, and home courts
- Same advanced digital options of the grand machines but holds 100 more balls
- Higher ball launch point simulates a standard ground stroke

Elite Grand

- All-digital with LCD screen
- Best for competitive players
- All the features plus pre-loaded drills, customizable drills
- Expanded 2-line options
- Fully random mode that throws balls throughout the entire court

Offering innovative products that empower players to boost their performance, Lobster is the ultimate training partner for players committed to improvement.

Lobster Tennis Tube

Elite

- Simple to use
- Beginner to intermediate players
- Excellent for families
- Adjust ball speed, spin, feed rate, and elevation
- Multiple battery or electric power options
- Triple oscillation (elite two and three)

**Portable.
Affordable.
Dependable.**

Whether you're working on your stroke with our ball machines or honing your skills with our comprehensive training aids, Lobster is your go-to source for tools to rapidly advance your game.

Pickleball Ball Machines

The Pickle Phenom

- Electric, commercial-grade machine
- Ideal for clubs, pickleball facilities, universities, and homecourt owners seeking maximum performance and usage
- Comes with choice of 20-function remote control
- Higher ball launch point simulates a standard ground stroke

Paddles

PickleHopper

The Pickle Champion

- Advanced to competitive players
- Cutting-edge technology with digital touch panel
- Works with Apple® devices
- Pre-loaded drills
- Fully random mode that throws balls throughout the entire court

The Pickle Two

- Intermediate to advanced players
- All the features of The Pickle plus narrow and wide 2-line drills
- Electric elevation control
- Larger battery for extended run time
- Power options: battery or electric

The Pickle

- Great for beginners to intermediate
- Top and backspin
- Random horizontal oscillation
- Battery-powered
- Lightweight and portable
- Easy to use

Backboards

A backboard that will fit everyone's needs, from budget-conscious to top of the line. The best backboard in the business is also your best value.

Economy Flat

135-812	8' x 12' (3 panels)
135-816	8' x 16' (4 panels)
135-817	8' x 20' (5 panels)
135-821	10' x 12' (3 panels)
135-822	10' x 16' (4 panels)
135-823	10' x 20' (5 panels)

ECONOMY

Visually looks like the 8' Slimline Flat series. Designed to compete with those who build wooden backboards. Each panel contains sound-deadening interior (no metal interior frame) and is encased in the same outer fiberglass and gel-coat shell with Imron® paint. Three horizontal rows of pressure-treated 2x4s (provided) mount to fence posts.

- Will not rot like other wooden backboards
- Great for court owners, driveways, schools, and parks
- 10-year warranty on backboards; 1-year warranty on paint

Professional Flat Series

135-1012	10' x 12' (3 panels)
135-1016	10' x 16' (4 panels)
135-1020	10' x 20' (5 panels)

PROFESSIONAL

Panels are 2 1/2"-thick with interior frames dividing each panel into 20 sub-compartments.

Each sub-compartment is filled with sound-deadening materials. Panels are encased in thick fiberglass and protective coating. Front edges of panels are sprayed with a high-quality impact-, solar-, and temperature-resistant green polyurethane Imron paint.

- 10' H panels
- Heavy, complex, reinforced metal interior frame
- Encased in thick fiberglass
- 10-year warranty on backboard; 1-year warranty on paint

Economy Flat

135-712	8' x 12' (3 panels)
135-716	8' x 16' (4 panels)
135-720	8' x 20' (5 panels)

SLIMLINE

Panels are 1 3/4"-thick with correspondingly less interior framework and thickness of sound-deadening material. Each panel is otherwise manufactured similarly to 10'-high professional lines. Panels are pre-drilled so green face bolts attach each panel to metal channel.

- Will not rot like other wooden backboards
- Great for court owners, driveways, schools, and parks
- 10-year warranty on backboard; 1-year warranty on paint

Single Curved Series

135-912	10' x 12' (3 panels)
135-916	10' x 16' (4 panels)
135-920	10' x 20' (5 panels)

CURVED

Made similarly to the 10' Professional Flat Series, but curved from top to bottom. The advantage of this backboard is that it simulates a tennis match while you still achieve practice, warm-up, and workout. Ongoing studies on Bakko's test courts reveal this backboard is the first choice of players and professionals.

- 10' H panels
- 2 1/2" thickness
- Gentle concave curve
- 10-year warranty on backboard; 1-year warranty on paint

Teaching Carts & Ball Baskets

Hoag A BRAND YOU CAN TRUST

Hoag Teaching Cart 120-9605BK

The most durable basket in the industry just got better! We've always had the best wheels — now we've added new locking wheels. These new wheels allow you to focus on teaching and not on chasing the basket. This basket holds 350 balls, allows you to store your racquets in the cart, and has an easy-locking lid and nice foam handle covers. Easy to assemble. Available in black only. 40 lbs

Hoag Teaching Cart Replacement Parts

Protect Your Investment

Protect and enhance your facility. Shield your court from the elements — and create a visually stunning space with our premium fabrics. Our products are designed to enhance the look and feel of your court. Our expert team can help you select the perfect fabrics to meet your specific needs.

- New Windscreen Products
- Essentials & Benefits
- Windscreens & Ties
- Backdrops & Fasteners
- Divider Netting

ExtremeScreen®80

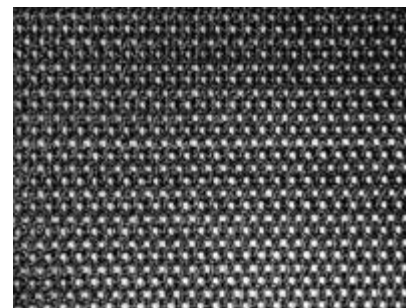

By far the most revolutionary and durable windscreen on the market.

ExtremeScreen®80 drastically reduces wind maintenance. It simply stays on the fence. Especially suited for tennis, pickleball, and other athletic fence screens as well as any high-wind applications.

- 50% less wind load versus competition according to ASTM 737 air permeability test
- Greatly reduced wind whipping
- Fewer broken fasteners — reducing loose and flapping screens
- Knitted polyethylene will not dry rot or become brittle
- No vinyl coating, so no surface cracking and/or peeling
- Printable logos available
- 7-year warranty

ExtremeScreen®80 is extremely tough, wind-resistant, fade-resistant, and attractive. This is an easily installed fence screen product with reinforced hems and triple-grommeted corners. At the core of its revolutionary patent-pending design is the knitted hexagonal pattern which forms a honeycomb lattice. The result is a diffusion of the airflow without creating drag on the fence, the fabric, or the attachment points.

New Windscreen Products

Har-Tru is excited to add a new line of windscreens to our portfolio of products providing you more brands you can trust. Available with all options is the ability to apply an additional UV protection for an additional fee, the ability to have the products digitally printed with logo or text for an additional fee, and the ability to customize to your specific needs. We are excited to add the following products to our line: ExtremeScreen, DuraScreen, and Vinyl-Coated PVC.

ExtremeScreen 112-600

The most durable product on the market. This revolutionary product unites the longevity and durability of knitted polyethylene with the look, stability, and feel of a vinyl-coated windscreen. Due to its unique patented design, it drastically reduces the load on fences and fasteners, virtually eliminating wind maintenance and damage. The HDPE will not wind whip, peel, crack, or dry rot. Product warranty: 7 years, adding value to your investment.

Available in: green, black, navy blue, and royal blue

112-600 6'

112-600 9'

Material: high-density knitted polyethylene

Weight: 12.5 oz/sq yd (ASTM-D3776)

Tear Strength: Warp 117 lbs/Fill 229 lbs (ASTM-D5587)

Breaking Strength: Warp 238 lbs/Fill 410 lbs (ASTM-D5034)

Bursting Strength: 509 lbs (ASTM-D3786)

Thread: #135 polyester

Hems: 1.75"-wide, 3-ply reinforced with 18 oz vinyl, sewn and never heat-sealed

Grommets: #2 brass grommets every 12" with triple-grommets corners

Grommet Strip/Anti-Billow Tab: 2" polypropylene binding with grommets every 24" (standard on 9' fabric; available by request on other heights)

Color Options

Premium VCP 112-900

Vinyl-Coated PVC is an industry staple for athletic and decorative windscreens. Premium VCP is a 10 oz woven polyester with a vinyl coating. The 84% opacity has excellent wind flow and creates an attractive visual barrier to keep players from distractions during play. This windscreen comes with a 5-year limited warranty.

Available in: dark green, black, navy blue, and royal blue (standard); purple, grey, red, tan, yellow, and maroon (custom lead times may vary)

112-900 6'

112-900 9'

Material: 18 x 14 — 1000 x 800 denier vinyl-coated polyester

Standard Heights: 6' and 9'; custom sizes available

Weight: 10 oz/sq yd

Density: 84%

Tensile Strength: 375 warp x 330 fill lbs

Tear Strength: 100 warp x 70 fill lbs

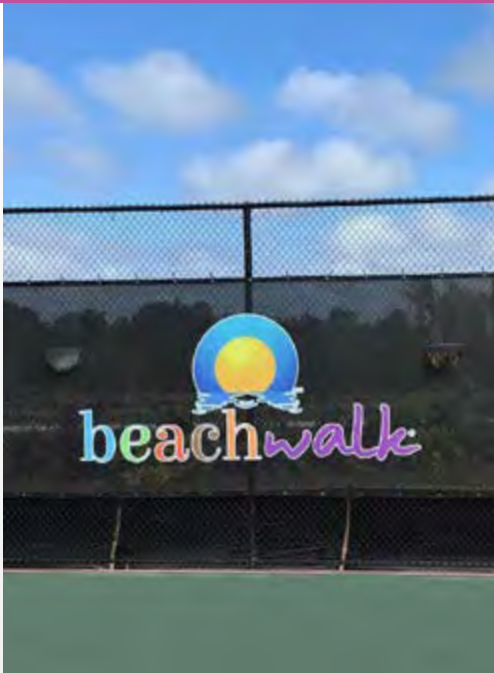

Thread: #135 polyester

Hems: 1.25"-wide, 3-ply reinforced with 18 oz vinyl

Grommets: #2 brass grommets every 12" with triple-grommets corners

Grommet Strip/Anti-Billow Tab: 2" polypropylene binding with grommets every 24" (standard on 9' fabric; available by request on other heights)

Color Options

Windscreen Essentials & Benefits

Function & Form

- Improves visibility and reaction time
- Provides privacy
- Breaks up gusting wind
- Minimizes off-court distraction
- Creates a professional and pleasing experience

Sizes, Vents, and Opacity

6' or 9'

- 9' are recommended
- 6' places less strain on fences and is a good choice where strong winds and/or old, weak fences are an issue

Vents

- Allow some wind to pass through, reducing strain on fence and fasteners
- Highly recommended for all 9' screens

Opacity

- Higher opacity means denser weave. Denser opacity is harder to see through and increases privacy. Does not impact strength of screen, but higher opacity will place more strain on your fence.

PLEASE NOTE: When ordering windscreens with vents or windows, you will automatically receive our standard straightline configuration unless you specify differently at time of order. If you prefer a high/low configuration or a different straightline design or placement, you must inform us when your order is placed. Call us if you need a copy of these standard designs and placements or to ask about other configurations.

For all sports fabrics, additional charges apply to specialty cuts, small pieces, and additional heights.

Hems are heat-sealed for maximum strength and durability. All sewing and stitching is eliminated where possible.

Installed in the center of 9' windscreens to reduce wind effect and increase screen durability, allowing for attachment to the fence at top, middle, and bottom.

Optional air vents are available

499-112HM
Half Moon Vent 18" diameter

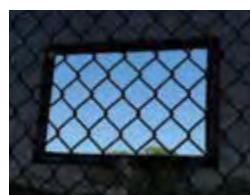

499-115
Half Moon Vent Bound 7" x 14"

499-123
Square Window Bound 12" x 12"

- Open Mesh: 5 oz per sq yd
- Closed Mesh: 5.6 oz per sq yd
- 4-year warranty (against defects in fabric and manufacturing, prorated)

Backdrops & Fabric Fasteners

COURTMASTER backdrops are used to screen out distractions of players moving between courts as well as to provide backgrounds against which to see the ball. They also provide a physical barrier to keep balls within the court. They are available in a number of colors and weights and are manufactured with high-quality vinyl. These come standard with grommets on the top only.

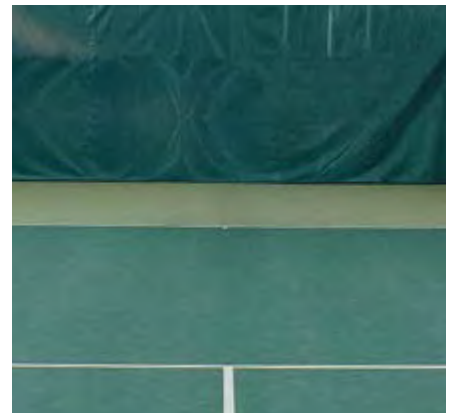

Indoor 18 Oz Backdrops

- 118-80349** Backdrop Without Lead Rope, under 50 sq ft sections
- 118-803** Backdrop Without Lead Rope, 50 sq ft and over
- 118-80149** Backdrop With Lead Rope, under 50 sq ft sections
- 118-801** Backdrop With Lead Rope, 50 sq ft and over

Color Options

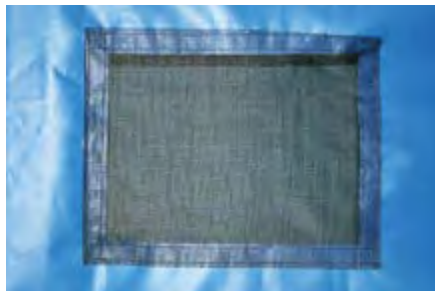

PLEASE NOTE: All work is custom to suit customer needs. Additional charges may apply based on customer-specific needs. Some notable upcharges are door flaps and cut outs.

PLEASE NOTE: All vinyl in our divider curtains, replacement skirts, backdrops, and padding meet the fire-retardancy standard of the California State Fire Marshal (<http://osfm.fire.ca.gov>) and NFPA 701.

- 113-270120** Divider Installation Kit 120'; Includes Cable, Clips, Turnbuckle, and Snaps
- 113-270150** Divider Installation Kit 160'; Includes Cable, Clips, Turnbuckle, and Snaps
- 113-295** Turnbuckle
- 113-222** Polypropylene Rope for Windscreen; Available in Black or Green, 3/16" x 500' L Spool

PLEASE NOTE: When ordering Replacement Skirts with Velcro™, note that our standard procedure is to attach the female/fuzzy part of the Velcro™ strip to the replacement skirt so that it can be attached to an existing divider curtain that has the male/rough part of the Velcro™ strip. If your existing curtain has the female strip and you need us to attach a male strip to the replacement skirt, we must be notified at the time the order is placed, because we will need to reverse our procedure.

Divider Netting

For maximum strength and high weather resistance. Netting is not coated; strength and weather resistance are built into fibers. 1 3/4" knotted mesh. Strength per mesh: 140 lbs. Bound on four sides with heavy-duty, vinyl-coated nylon. Grommets spaced 15" apart on top and sides.

Options Include:

- Lead rope bottom hem
- 1' vinyl bottom
- Velcro™-detachable 1' vinyl bottom
- Standard curtain
- 1' vinyl bottom weighted with lead rope
- 10' and 12' H
- Velcro™-detachable 1' vinyl bottom with lead rope

PLEASE NOTE: When ordering Replacement Skirts with Velcro™, note that our standard procedure is to attach the female/fuzzy part of the Velcro™ strip to the replacement skirt so that it can be attached to an existing divider curtain that has the male/rough part of the Velcro™ strip. If your existing curtain has the female strip and you need us to attach a male strip to the replacement skirt, we must be notified at the time the order is placed, because we will need to reverse our procedure.

For complete confidence to install, improve, upgrade, & maintain your courts, turn to Har-Tru Consulting

HAR-TRU MAINTENANCE TRAINING & CERTIFICATION

A two-day certification seminar that will train your staff in every single aspect of effective and efficient court upkeep and construction, from irrigation to fencing to weed control and regular reconditioning. Certificates will be awarded to participants.

ONE-DAY FACILITY VISIT

During our one-day facility visit, we'll inspect your courts and consult with you to identify opportunities around spring reconditioning, court opening, daily and periodic maintenance, annual budgeting, and control of operating expenses.

IRRIGATION SYSTEM DESIGN AND MAINTENANCE

A survey that identifies your current water system, how it operates, and how enhancements can be made — including recommendations on how to improve operating pressure, gallons-per-minute, general system components, and effective coverage.

COURT ANALYSIS SURVEY

Har-Tru consultants will check your courts for proper slope, survey court thickness and base material, and examine your equipment, amenities, and irrigation system.

LIGHTING ANALYSIS SURVEY

We offer a full lighting analysis service, including system design, installation, and maintenance. We analyze your existing lighting system, generating a photometric map that illustrates how improvements can be made — from changing bulbs to installing the latest energy-efficient light fixtures.

OWNERS REPRESENTATIVE CONSULTING

Our consulting service can be invaluable during the critical stages of construction, rebuilding, and reconditioning. We can help you convert your old hard courts to HAR-TRU,® ClayTech,® or HydroCourt® surfaces. In addition, we can assist in developing a long-term plan for success, from court selection to installation and beyond.

**Call us today for more information
800-247-2326**

Let Us Help You Create a Better Place to Play.

No matter the surface or sport, we have you covered! Har-Tru is your single source for the best surfaces, premium equipment, and essential supplies. We welcome your questions about products or projects. Reach out anytime! Our passion is making sure your game — and your court — is the absolute best it can be.
