BEAM CLAY®

Gymnasium - GymGuard® Floor Covers

GymGuard® Floor Covers ADD YEARS TO THE LIFE OF YOUR GYM FLOOR!

Most gyms are multi-purpose. So your gym floor has to hold up to a lot more than sports - dances, concerts, graduations and other activities. It gets heavy foot traffic, stains, scuffs, impact from furniture and more. **GymGuard®** covers are built tough to protect your investment.

Features:

- Ultra-durable, 3-ply fabrics** – PVC coated (on both sides) polyester mesh
- Fire retardant** to all standard fire codes—NFPA 701, CA Fire Marshal and UL 300
- Available in **15 colors** and **5 weights**
- Waterproof, rot and mildew resistant, anti-fungal and anti-bacterial**
- 10' wide sections**—seams are strong and lay flat and smooth
- Custom-made to your gym floor dimensions, or Available in 10' x 100' sections for quick shipment

Pre-cut 10'x100' floor sections – quick shipment!

- Available in Tan and Royal Blue
- Available in 18 oz., 22 oz., 27 oz. and 32 oz.
- Ships on a roll

GymGuard Floor Covers have full warranty against fabric and manufacturer's defects. See chart to right.

GymGuard® Plus

Durable gym floor cover protection PLUS a unique raised pattern provides more than 2 times the slip resistance* of standard **GymGuard®** surfaces.

- Advanced slip resistance = enhanced level of safety
- Available in Tan and dark gray colors
- 32 oz. and 27 oz. weights

Cover sizing – the 10-foot solution

GymGuard® covers are constructed in 10' wide sections for easy handling. When figuring the size of the cover you need, we suggest adding 6"-12" for overlapping each section.

(For example, for a 75 x 110' floor, order 8 sections measuring 10' x 110' each.)

How to choose the right cover weight

To recommend the most cost effective **GymGuard®** cover for your application, we need to know:

- Expected frequency of cover use per week/month/year
- Types of functions you will have on the covered floor
- Dimensions of gym floor
- Color preference

Gymnasium GymGuard® Mobile Storage Racks

Two hand cranks with rotating grips for easy winding

Aluminum safety collars, yellow security bars, blue vinyl end caps

Four 8" non-marking, urethane swivel wheels with safety brake

**GymGuard®
Mobile Storage Racks**

Easy lay-down and roll-up of floor covers.

Our standard rack allows safe, fast and easy covering of the gym's surface. Roll-up and transport to storage area can be done by two people.

Racks are available in 6, 8 and 10-roller models.

Features:

- Four 8" non-marking urethane, swivel-type wheels can support up to 3,600 pounds of cover and rack
- Yellow safety bar and aluminum safety collars – prevent the roller from popping out, side-to-side movement and accidental finger pinching
- Blue vinyl end caps – protect from sharp edges
- Safety brake – placement and design make it easy to lock all wheels in place
- Rollers are 14-gauge galvanized steel and the entire frame is a mig-welded, all steel construction

Included with all racks:

- New rotating grip makes rolling up easier
- 3 fabric clips per roller for securing cover to roller
- Instructions for assembly and operation

Premier Mobile Storage Rack

The Premier Rack is an upgraded version of the Standard Rack that includes even more safety features:

- Six 8" diameter wheels reduce risk of damage to floor boards by distributing weight load and allow for easier rack movement
- Safety leg extenders with two 3" wheels provide extra stability
- Storage trays to hold extra rolls of tape or the Power Winder

WARRANTY Storage Rack warranty: 20-years against defects in material or workmanship.

Storage Rack Specifications	
Sizes	
Standard Rack	34" W x 12'6" L x 67" H for 10' wide covers

GymGuard™ Frequently Asked Questions

What is the best way to clean my gym floor cover?

Use a mild dish detergent or an industrial strength cleaner found at a home supply store or supermarket, such as Mr. Clean.

Can I play sports on gym floor covers like soccer, baseball, and floor hockey?

While the covers are ADA compliant for slip resistance, they will be more slippery than the wood floor. Gym floor covers are designed for non-athletic events, not for sports activities. Activities played at high speeds with hard foot plants and cuts are not recommended on the GymGuard product.

If I am getting a gym floor cover with custom lettering/ logos, will it wear off due to foot traffic?

TuffPrint is expected to wear the same as the cover itself – eventually, over a period of years, it may wear off, depending on the traffic.

Can gym floor covers be installed on surfaces other than hardwood floor, such as rubberized flooring or carpet?

Yes, it is possible for gym floor covers to be used on carpeted and rubberized floors. The heavier fabric options might work best because they will lay flatter and be less susceptible to movement by foot traffic and tables/chairs. One should know that the tape will work for taping the sections together but may not work for taping the covers to the floor surface.

How do I choose the most suitable weight for my needs?

We usually determine our recommendation based on how many times you will use the covers per year. Of course, budget is a factor as well. The heavier weights are more expensive, while the lighter weights are lower in price.

32oz = 25+ times per year

27oz. = 15 – 24

22oz. = 8 – 14

18oz. = 1 – 8

What are the advantages of using a gym floor cover?

Gym floor covers provide protection, event space opportunity and increased income for your facility. Gymnasiums are often multi-purpose facilities: the setting for dances, registrations, banquets, plays, and commencements, in addition to sporting events. It is worthwhile to maximize the space by hosting activities that can generate incremental revenue, but it's critical to protect the gym floors from damage caused by high heels, chairs, tables, and food and drink. New gym floors can cost \$50,000 - \$100,000 so it makes sense not to risk damage to this valuable part of your facility. Two people can install a floor covering system over your entire gym floor within 30 minutes, providing you with the assurance that the floor will be safe from potential damage and helping you protect your investment for years to come.

How long will my gym floor cover last?

GymGuard fabrics are made with rugged substrates and durable coatings, ensuring the longest wear possible. The heavier the fabric, the longer the warranty. To increase the life expectancy of the cover, it is best to store the covers properly on a Mobile Storage Rack.

Why is the Mobile Storage Rack the preferred method of floor cover storage, rather than folding them?

Depending on the length and weight of your floor cover, each section can weigh over 100 pounds, which can make moving and storing them extremely laborious. It is safer and easier to use the Mobile Storage Rack for this process. Folding the covers is also not recommended due to creasing of the covers during storage time, which weakens the fabric. In addition, creased covers will not lay as flat, posing tripping hazards for those walking on them.

GymGuard® Floor Covers

WARRANTY

GymGuard covers are warranted to the original purchaser for the following number of years from the date of purchase against defects in the material or workmanship as to the cover components. The word “defects” as used in this warranty, is defined as imperfections which impair the utility of the product. Warranties are pro-rated:

- 32oz. = 17 years
- 27oz. = 15 years
- 22oz. = 10 years
- 18oz. = 8 years
- 10oz. = 3 years

This warranty is expressly limited to the repair or replacement of cover components having defects. If the cover component is defective within the terms of the warranty, CoverSports will repair or furnish a replacement cover component at no cost. No replacement labor is included.

This warranty applies under conditions of normal use, but does not apply to defects that result from intentional damage, negligence, unreasonable use or mishandling. GymGuard covers are designed for indoor use. Warranty does not apply to covers used outdoors.

All implied warranties arising under state law are limited in duration to the period of this warranty. Some states do not allow limitation on how long a limited warranty lasts, so the above limitation may not apply to you.

Liability for incidental or consequential damages is excluded to the extent exclusion is permitted by law. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitation or exclusion may not apply to you.

This warranty gives you specific legal rights, and you may also have other rights which vary from state to state.

GYMGUARD MOBILE STORAGE RACK AND BRUSH ASSEMBLY:

20-year pro-rated warranty against material or workmanship defects.

POWERWINDER™: 1 year warranty for parts & labor

Report cover defects in writing.

EnviroSafe Gym Products

OUR FOAM

Our exclusive **EnviroSafe™** Gym mat and padding collection is made of a specialized "green" foam product that is safe for your gymnasts, players and for the environment. A four-part recycling process (shown below) explains how **EnviroSafe™** foam is made.

OUR FABRIC COVERINGS

Nissen **EnviroSafe™** mat and wall padding fabrics are tough! Our PVC-coated fabrics are super tear-resistant, antibacterial, phthalate-free and have high UV and flame resistance. They can take the most rugged indoor and outdoor wear. All indoor mats and wall pad coverings meet fire codes – including NFPA 701, CA Fire Marshal and UL 300. Other vendors use 14 oz. laminated fabrics, which tend to peel after extended use. Our 18 oz./sq. yd. fabrics are coated in one homogeneous layer of PVC and polyester.

EnviroSafe™ Features:

- Made from 60% recycled and 40% virgin polyester fiber
- Excellent cushion resistance
- Varying degrees of firmness
- Safer for environment and end user compared to Urethane, Poly or Rebond foams
- Patented foam technology licensed exclusively to CoverSports by Indratech
- Our wall padding line contributes to LEED credit score

Density Lbs. per cubic foot. (Example: 1.7 lb. density foam means 1 cubic foot weighs 1.7 lbs.)

IFD, Indention Force Deflection, is a measurement of foam firmness and is independent of foam density. IFD is measured by indenting (compressing) a foam sample to 25% of its original height. The amount of force in lbs. required is its IFD measurement. The more force required, the firmer the foam.

IFDs usually range from 10 IFD (super soft) to 100 IFD (very firm).

EnviroSafe Flex-Firm Foam: IFD 100

EnviroSafe Classic Foam: IFD 50

Phthalate-free **EnviroSafe™** products do not contain phthalates – chemical plasticizers that are often used to soften plastics. Phthalates are not environmentally friendly.

2" Med-Firm EnviroSafe Folding Mat	Number of Plastic Bottles Used
4' x 6'	403
4' x 8'	537
5' x 10'	839
6' x 12'	1208

EnviroSafe™ Is the foam to meet your needs.

PRICES SUBJECT TO CHANGE & AVAILABILITY PLUS SHIPPING | VOLUME DISCOUNTS AVAILABLE | COOPERATIVE PURCHASING CONTRACT PRICING FOR 50 STATES

Sport/Application	Recommended Foam Type	Description
Gymnastics-Beginner	2" Flex Firm	Provides soft cushioning for low impact activities. Ideal for teaching basic gym exercises with young children. Provides low shock absorption.
	2.5" Extra-Firm/Flex Firm Combo (Cross-link type/Flex-Firm)	Provides more density and more firmness (less "sinking") than Flex-Firm. Extra-firm bonded to Flex-Firm. Provides firm landing and prevents bottoming out.
	4", 8" or 12" Soft IFD 50 (Safety Landing Mats)	Provides added support and thick cushioning for falls and landings during practice.
Gymnastics-Intermediate	2" Medium-Firm (Bonded type)	Medium-firm foam provides safe cushioning for medium impact activities.
	2.5" Extra-Firm/Flex Firm Combo (Cross-link type/Flex-Firm)	One ply of Extra-firm foam bonded/laminated to one ply of Flex-Firm. Provides semi-soft cushioning, firm landing and stable shock absorption for medium impact activities. Prevents bottoming out.
Gymnastics - Advanced	1.5" Extra-Firm (Cross-link type)	High density offers firm, lightweight shock absorption for top recoil. Provides stable landing surface that won't bottom out. 1.5" Extra-firm foam laminated to Flex-Firm foam. Ideal for high-impact activities and tumbling. Provides significant shock-absorption for gymnasts sticking landings from vault, bars, and balance beam routines.
	5" or 8" Extra-Firm/Flex Firm Combo (Cross-link type/Soft) (Competition Landing Mats)	
Gymnastics - Instructor Mats	2.5" Extra-Firm/Flex Firm Combo (Cross-link type/Flex Firm)	One ply of Extra-firm foam bonded/laminated to one ply of Flex-Firm. Ideal for beginners and for new skill development. Prevents bottoming out so gymnasts of all ages and skill sets can use the mat with confidence.
Martial Arts	1.5" Extra-Firm (Cross-link type)	High density provides firm footing and "street conditions", no sinking.
	2.5" Extra-Firm/Flex Firm Combo (Cross-link type/Flex Firm)	One ply of Extra-firm foam bonded/laminated to one ply of Flex-Firm. Provides firm footing with additional cushion for fall absorption.
Cheerleading	1.5" Extra-Firm (Cross-link type)	High density provides stable landing surface and firm footing for high-impact activities. Won't bottom out.
	2" Medium-Firm (Bonded type)	Medium firm foam provides more soft cushioning than Extra-Firm, for medium impact activities.
	4", 8" or 12" Classic (Safety Landing Mats)	Provides significant cushioning for landings at the end of tumble tracks.
Home Exercise Mat	2" Flex Firm	Provides soft cushioning, comfort and moderate support for low impact, home exercise activities.
Gymnasium Wall Padding	2" Medium-Firm (Bonded type)	Medium firm foam meets ASTM F-2440 for impact resistance.
	2" Flex Firm	More cushion than Medium-Firm, less impact resistance and shock absorption.
	2" Medium-Firm (Bonded type) FR	Meets ASTM E-84-08a for flame retardant and ASTM-2440
	2" Classic Soft IFD 50	Provides extra softness and cushioning for protection against injuries.

ENVIROSAFE FOAM

Our exclusive EnviroSafe Gym mat and padding collection is made of a specialized "green" foam product that is safe for your gymnasts, players and for the environment.

OUR FABRIC COVERINGS

BEAM CLAY®

EnviroSafe® Gymnasium Mats

EnviroSafe® Gym Mats

Our EnviroSafe gym mat collection is safe for gymnastics, martial arts, and the environment. EnviroSafe has a suitable mat for all skill levels – from beginners to advanced – and activities – low and high impact tumbling, landings and movements. The foam choices range from very soft to extra firm to provide the right amount of cushioning and absorption. EnviroSafe gym mats are perfect for your gymnastic or martial arts club, school gymnasium or other athletic facility. They allow for easy handling and storage while not in use.

Folding & Non-folding Mats

EnviroSafe tumbling mats are available in many foam choices, sizes and color combinations.

Safety Landing Mats

4" mats are typically used for elementary ages. 8" and 12" mats are used for training, skill building and safe landing in non-standing positions.

FEATURES:

- 1" color-matched handles on long sides
- Mesh breather strips on long sides
- Soft impact absorption – Classic foam
- 4" Velcro end flaps
- 18 oz. fire retardant PVC coated covering
- Three thicknesses: 4", 8" or 12"
- Safety landing mats are not EnviroSafe

GYMNASIUM

Make sure your padding meets ASTM standards for flame spread and impact resistance!

Printed Wall Pad

CUSTOM CUT-OUTS AVAILABLE

Nissen EnviroSafe® Wall Padding

THE POWER OF BRANDING™

TuffPrint™ can give your gym walls and school spirit a boost!

TuffPrint digital print can add lettering and logos using:

- State-of-the-art machinery – all in-house
- Ultra-durable premium ink with unlimited color selection and gradient shading
- See pg. 36 for full TuffPrint process details

MAKE THE GREEN CHOICE. EnviroSafe is made of recyclable and recycled material. EnviroSafe wall padding costs no more than other standard urethane/poly foam panels. We have foam types that meet **ASTM E-84-08a** standard **ASTM 2440** and Calif. Technical Bulletin #117.

FEATURES:

- 24" width x 60", 72", 84" or 96" heights, 2.5" thickness
- 2" Medium-Firm foam meets **ASTM F-2440** for impact resistance (and option for class A E-84)
- 1.5" Extra-Firm available
- Phthalate-free and antibacterial covering
- Contributes to LEED credit score

COLORS:

- Green, Royal Blue, Red, Navy Blue, Gray, Maroon, Sky Blue, Purple, Yellow, White, Tan, Black, Kelly Green, Orange

Wall Padding Installation

Standard
1" nail margins

Additional
Z-clip mounting attachments for easy removal, repair or replacement of wall panels (no nail margins)

Our sharp multi-color images will outlast other processes. Eliminates the historic problems of digital printing, like weathering, premature fading, scuffing, and unsightly white mesh backside color. Images will last outdoors as long as the fabric, something rarely true with digital imprinting. Also highly spike, cleat, and racquet resistant. Our thick, individually-applied, double coating process literally bonds the image into the vinyl and completely masks the underlying fabric color, so image colors are vivid and true.

Chroma-Bond imprinting is available on our vinyl-surfaced windscreen, cover, padding & sign products.

Gym Divider Curtains

Gym Divider Curtains provide an easy and economical solution to divide your gym space for multiple activities.

Features:

- Constructed of fire-retardant vinyl-coated polyester mesh to allow air flow, or solid vinyl for privacy
- Available with mesh top and 18 oz. solid vinyl bottom, as shown in picture, at no additional cost
- Made to your specifications

We only supply the fabric curtain, ready for installation on existing hardware. We do not sell the hardware required for mounting to a facility.

COLORS:

Tan, Royal Blue, Light Gray, Red, Green, Burgundy, Kelly Green, Navy Blue, Dark Gray, Black, Orange, Yellow

Walk-Draw Style		
White Mesh Top: Hemmed with Grommets every 12"		
Solid Vinyl Bottom (choose color): Weighted Hem		
Sides: Hemmed		
Typical: 8' Solid Fire Retardant Vinyl on bottom, 8' Fire Retardant Mesh On Top.		
Custom Sizes	GYMDIV	\$1.53/SF
