WHAT SIZE PDS® FENCE SLATS WILL WORK IN YOUR CHAIN LINK FENCE?

The PDS® Fence products are available in a variety of Fence Privacy Slats (Inserts), which fit in different sizes of chain link fencing. We have Fence Slats that fit into the following diamond sizes: 1-3/4", 2", 2-1/4", 2-3/8" and 3-1/2" x 5".

Before you order Fence Slats, you must first determine the size of the "diamond" on your fence. This is done by measuring the inside dimensions diagonally in both directions. (See Photos Above)

Please note: The wire gauge (thickness), will affect the fit of our Fence Slats. Each product in this brochure includes a chart to show what size Fence Slat needs to be ordered for the various diamonds and gauge combinations available in the marketplace.

Above is a measurement of a 2" Chain Link Diamond.

With the proven quality and durability of our standard slats, plus unique flexible "wings" for extra screening and security, Winged Slats® are self-locking - no locking channels are needed!

The FinLink® slat offers extra screening and security with a unique configuration of (3) three privacy fins.

Design: Our innovative Winged Slat has a rigid, flat-tubular body, with two "legs" inside the rigid, hollow body of the slat for extra support and durability. Flexible and resilient wing portions are positioned on each side of the slat body. Serrations are added to the wings for easier installation and locking power.
