# SOL-Aer® Winter Turf Blanket

## Silver Lace Coated or Uncoated Basic White

Introducing the next generation of winter turf protection. Combining a revolutionary non-woven co-polymer fabric with a proven heat-absorbing silver lace coating, SOL-Aer Turf Blankets provide improved insulation for winter-weary grass root systems.

With its ground-breaking non-woven co-polymer fabric and proven heat absorbing/reflection lace coating SOL-Aer Winter Turf Blanket is the best turf protector ever.

**Fabric:** A unique Non-Woven material that is composed of bi-component fibers: A polypropylene core sheathed in polyethylene means strength and durability, plus superior nighttime insulation.

**Silver Lace Coating:** Combines with good sunlight penetration to increase daylight warming and decrease nighttime cooling. Same lace coating as on competitive Radiant product.

**Fusion Welded Seams:** Eliminates sewing and allows this super tough fabric to be moved and walked on without damage.

**Light One-Piece Construction:** Easy to hand cut without fraying, making for easier installation, removal and storage.

**Mark-On Surface:** Allows magic marker coding for precise positioning relative to other panels, sprinklers, goal posts, etc.

**Insect Barrier:** Light, water, & air penetrate through, but this tighter-than-woven material disallows insects from burrowing thru.

**CHOOSE THE RIGHT CONFIGURATION FOR YOUR FIELD:**  
CHOICE 1. Silver Lace Coated or Uncoated Basic White  
CHOICE 2. No Edging or Vipol® Edging with Grommets

SOL-Aer™ Winter Turf Blanket with Silver Lace Coating

SOL-Aer Turf Blanket with Vipol® Edging & #4 Grommets Installed All Around on Uncoated White Non-Woven or Silver Lace Coated

### ADDITIONAL FEATURES and BENEFITS

- Vipol Edging adds strength and breathability.
- Non-woven fabric provides additional thermal insulation.
- Provides frost protection and moisture retention.
- Promotes earlier and more rapid germination and greening.
- Standard Sizes: 10'x20', 20'x50', 50'x60', 60'x90', 70'x90', 90'x90', 80'x110'
- Round top flat stakes included.
- Custom sizes and cuts are readily available.

With its ground-breaking non-woven co-polymer fabric and proven heat absorbing/reflection lace coating SOL-Aer Winter Turf Blanket is the best turf protector ever.

**TESTIMONIAL**

I wanted to take the opportunity to let you know how satisfied we are at Purdue University with your new sideline cover. This new sideline cover has held up better than I imagined. The three customized colors that distinctly mark the coaches and players areas really help our coaching staff keep order on the bench. The permeability of the material helps keep the cover cleaner than any other sideline cover we have used in the past.

I would recommend your sideline cover to any school or team for their use in their stadium. I've been the stadium director at Purdue University for over 20+ years and I can say with confidence that your sideline cover is the “Best” we have used.

Sincerely,  
**BOB HALAS, Director of Outdoor Athletic Facilities, PURDUE UNIVERSITY**

Our sharp multi-color images will outlast other processes. Eliminates the historic problems of digital printing, like weathering, premature fading, scuffing, and unsightly white mesh backside color. Images will last outdoors as long as the fabric, something rarely true with digital imprinting. Also highly spike, cleat, and racquet resistant. Our thick, individually-applied, double coating process literally bonds the image into the vinyl and completely masks the underlying fabric color, so image colors are vivid and true.

**Chroma-Bond** imprinting is available on our vinyl-surfaced windscreen, cover, padding & sign products.

**HUDDLE ZONE™ SPECIAL TEAMS MAT—WIND WEIGHTED**

**FEWER COSTLY PENALTIES & LOST TIMEOUTS**  
Gives special teams an exact location  
to **ORGANIZE** and **CALL PLAYS**  
before entering the game.

Constructed of cleat-proof industrial matrix fabric with a 3' square for each special team player, plus the front section for captain and coach. Entire edge is vinyl wrapped with internal steel chain weighting, making mat **WIND-PROOF** and easy to install without stakes. Just lay in on turf or over sideline turf protector.

*Easily folds and travels  
with team to away games!*

SPECS: Fabric: Vipol™ Matrix Material  
Standard color: Light Grey with 3" wide screened-on yellow stripes and yellow vinyl edging.

**TESTIMONIALS**

Our coaches feel the Huddle Zone™ Mat's convenience has saved them time, giving our kids a central location to meet before going out on the field. It has been easy to maintain and travel with. It also keeps our special teams area clear for our players to meet.  
GARY JOSEPH, Head Football Coach, KATY HS; Katy, TX

Each player on our punt team is assigned a box and knows to be in it on 3rd down. It enables us coaches to have players ready if we choose to punt and may have saved us a timeout or penalty. We give some credit to the Huddle Zone™ Mat for one of our better special teams performances this season.  
GREG MANTHEI, Special Teams Coordinator, DULLES HS; Sugarland, TX

EnkamatPlus and Enkamat Flatback—Turf Protection for Concerts, Graduations & Special Events

## EnkamatPlus

EnkamatPlus is an innovative product that provides maximum protection for natural turf fields in some of the most high traffic areas — the sidelines during football and soccer games and around the batting cages and fungo areas for baseball practices. What makes this product work so well is that it won't crush or suffocate the grass. The open structure of the mat allows rain (and other liquids) to flow through, the grass blades to remain intact, and protects the field from unwanted down time. It is perfect for multi-use and professionally maintained fields.

Made of a tough polyester fabric bonded to a special constructed three-dimensional nylon core, EnkamatPlus is the solution for keeping grass healthy and green. This flexible, open matting is the most effective protection you'll find to replace old-style tarps and polyester blankets.

Installing EnkamatPlus couldn't be easier — it can be rolled out and rolled up within minutes. After the game the rolls can be easily stored in an equipment room or outdoor storage area and are reusable season after season.

*When asked if he would recommend EnkamatPlus to his colleagues Ross Kurcab, Turf Manager of the Denver Broncos replied, Absolutely! It simply protects the grass better. It is softer for the players and easy to deploy. Any added expense would be saved in the first year from little or no grass repair.*

16'W x 150'L Rolls, 430 lbs.	#205663	\$3,195/Roll
8'W x 150'L Rolls, 215 lbs.	#205647	\$2,125/Roll

## Enkamat Flatback

Enkamat Flatback is an alternative for field protection during non-athletic events. It can be used alone or as part of a protective flooring system. It is installed with the flat, two-dimensional side up to provide a smooth, even surface for plywood, geotextile fabric, or chairs to be placed directly on top. Equipment can be moved on and off the field with no damage to the turf.

15'W x 150'L Rolls, 235 lbs.	#181999	\$4,650/Roll
------------------------------	---------	--------------

## Concerts & Social Events

Professional and non-professional athletic fields are being used more often for concerts and other social gatherings. EnkamatPlus and Enkamat Flatback can be your cushion of safety. The products have a Class A Fire Rating and a smooth, walkable surface. Typically Enkamat Flatback is used 5-6 layers high under stage supports.

Thousands of feet hoppin' to the beat won't crush EnkamatPlus & Enkamat Flatback. This strong, yet flexible structure springs back into shape under incredible weight. In fact, when the same matrix is used in construction applications heavy vehicles drive on it all the time. So what's to worry about a mob of energetic teenagers or some beefed-up linemen?

EnkamatPlus provides protection for the sideline areas and can withstand the pounding of cleats, heavy equipment, chairs, and thousands of dancing feet.

"When they rolled it up, we were amazed. The grass looked brand new. It really worked like a champ."  
— Larry Hawkins  
Asheville Tourist  
General Manager

EnkamatPlus protects the field in any vulnerable area.

Enkamat Flatback being unrolled before a rock concert.
