**PATHWAY MIXES**

Available in 3/16" minus Burgundy Red, Grey, Tan or White aggregates blended with either a 20% **Beam Clay® Binder** for smoother surface, or a 5% **Beam Clay® Binder** for a somewhat crunchier surface, or "**Stabilized**" with Stabilizer® a natural organic binder at rate of 15 lbs. per ton for an even firmer, yet more resilient surface—each with excellent drainage and resistance to erosion. Excellent natural surfaces for walking paths, jogging trails, driveways, or patios.

Easy to maintain: Recommended maintenance is to scarify and roll each spring. Otherwise, drag mat as needed to maintain smooth surface. Recommended depth is 1" - 3" depending on your base. If poorly draining soil, stabilize base first with 3/4" minus road stone.

**3/16" Red Pathway Mix**
