CONCEPT 3000 DISLODGING SAFETY BASE

REDUCES THE POTENTIAL FOR INJURIES FROM SLIDING

On impact, the top pad dislodges from the bottom plate. The pad of the base is engineered to maintain vertical rigidity, to support a player standing on the base, while maximizing horizontal flexibility so that the pad will flex on impact.

The plate of the base is designed to be streamlined and low to the ground to allow the player to smoothly slide over the plate after the pad dislodges.

To reset the pad after it has dislodged from the plate, the posts on the pad may simply be aligned with the holes in the plate and inserted. The pad can be reset on the plate in seconds.

DISLODGING BASE SYSTEM

Official 15" x 15" size to meet Little League® requirements
Base is designed to allow the umpire to make calls as the play progresses
Heavy-duty all-rubber pad
Steel stanchion fits male & female anchor systems
3 ground anchors and 3 plugs included
*Complies with Little League® Rule 1.06
