DOUGLAS D-PRO ADJUSTABLE SERIES SYSTEMS

These redesigned adjustable basketball systems are built to the MAX for durability, playing performance and design appeal.

CLEAR VIEW BACKBOARD

- Unobstructed tempered glass for the preferred "Clear View" professional appearance

- Model 645 features a 42" X 60" size, Model 646 features regulation size, 42" X 72"

- 1" thick molded vinyl backboard padding

RECTANGULAR STEEL BACKBOARD

- Durable 42"x 60" rectangular steel backboard has a 12 gauge steel shell with a white powder coat finish and an orange printed target and border.

- Board has an integral reinforced steel channel on reverse side for mounting and increased board support.

PRESSURE FLEX BREAKAWAY GOAL

- Designed to last with consistent rebound and aggressive slam-dunk play

- Goal has an extended wing brace and a double spring flex breakaway mechanism

REINFORCED EXTENSION ARMS

- Strong reinforced extension arms overhang 4'

- The top extension arm is 1-9/16" x 3-1/8"

- Lower extension 2"x 4" extending wide for increased stability

STEEL POLE

- 6" Square 3/16" wall galvanized steel

- Black acrylic powder coating for ultimate weather protection

- 2" thick fitted pole and base pad

ADJUSTABLE HEIGHT

- Adjusts from 6' to 10' height

- 2 Lift-assist cylinders for effortless adjustments

- Stainless steel removable handle

J-BOLT ANCHOR SYSTEM

- Anchor kit with template, J-bolts and rebar

- Designed for ease of installation and relocation

ALL WEATHER PROTECTION

- Hot dipped galvanized steel

- Stainless steel hardware

BEAM CLAY®**DOUGLAS F-5 FIX SERIES SYSTEMS****WHOLESALE PRICE LIST**
EFFECTIVE: FEBRUARY 1, 2023

The F5™ Series is an ideal choice for institutional applications such as neighborhood parks, municipalities, school playgrounds and anywhere else an adjustable system is not desired or needed. The fixed system was designed with safety in mind with a uniquely angled 5' extension arm that allows for the maximum safe-play area minimizing any potential contact with the extension mount.

MAX Clear View 42" x 60" Backboard

Our durable, unobstructed, NBA regulation size "clear view" tempered glass backboard has an aluminum perimeter frame supported by a welded steel back frame. This combination allows for a very rigid playing experience and maximum ball response. Unlike traditional "H Frame" backboard supports, the reinforced galvanized steel extension arms attach directly to the perimeter frame, allowing for the preferred, professional "clear view" appearance. The 655 Model has a 42" x 60" tempered glass board that is a full ½" thick which is the same used at all competitive levels such as the NBA and NCAA. Plus, we've pre-installed black, one-inch thick molded vinyl backboard padding to give you the best playing experience. Ever.

Pressure Flex Breakaway Goal

The stress of heavy, unsupervised play and aggressive dunks are no match for Douglas® F5™ Basketball Systems' durability and performance. Constructed of robust steel with a CSPC compliant powder-coat finish and featuring a 5/8" thick, 18" steel rim, and a double spring pressure flex breakaway mechanism, our recreational breakaway goal attaches to the MAX clear view backboard and directly to the extension arm. Featuring unique hidden net attachment style hooks along the inside of the hoop, our pressure breakaway goal will withstand the weight of even the most aggressive slam dunks. You better believe it.

5' Fixed Extension Arm

The Douglas® F5™ fixed extension arm overhangs 5' providing stability, strength and extra room for lay-ups and fast competitive play. The unique extension mount is angled and completely out of the play area minimizing any potential contact with the extension mount. The corrosion-resistant 5" x 5" reinforced extension arm attaches to the base of the backboard and to the outer perimeter of the frame allowing for the preferred "clear view" style. Upper brace arms are provided for maximum stability.

Galvanized Steel Pole

Constructed from 6" square galvanized steel with a 3/16" wall thickness, the Douglas® F5™ System is built to handle rugged play in the toughest conditions. Through decades of design and testing, we have manufactured our one-piece construction galvanized steel pole, equipped with double welded base gussets, with the optimal specifications to minimize shake and vibration. Every steel pole is finished in an attractive black acrylic powder coat to prevent chipping, rusting and corrosion in virtually any environment from coast to coast. For increased aesthetic appeal and to keep our players safe and free from injury, we have included a durable 2" thick fitted pole and base pad with every Douglas® F5™ Basketball System. Rest assured, your MVPs are protected.

Protective Padding

Form fitted pole and base padding are manufactured with durable black all-weather vinyl that is UV and all weather resistant. Dense foam padding is 2" thick for maximum impact protection. Padding secures in the back with sewn-in overlapping velcro straps. Sleek, molded vinyl backboard padding offers maximum player protection while not interfering with game play. Backboard padding is pre-installed for your convenience.

Easiest Installation Process

A robust anchor system allows for easy and accurate leveling during installation. All systems are set in a structurally sound 4' deep concrete footing providing a safe and steady base you can trust. Not only are our bolts and base completely covered for player safety, our J-bolt anchor system permits you to dismount your basketball system and move to a new location – all you will have to do is install a new anchor system at the new location. Easy. As. Pie.

All Weather, All Season Protection

Blazing summers, drizzly springs, and icy winters are no match for the ultimate weather protection of our Douglas® F5™ Basketball Systems. Our team immerses our steel in a bath of molten zinc to produce a corrosion resistant, multi-layered coating of zinc-iron alloy and zinc metal, preventing rusting and chipping, while providing ultimate weather protection against the elements. All of the fastening hardware is made from stainless steel to ensure your system maintains its structural integrity. Plus, all protective padding is completely weather treated and UV resistant. Rest assured, your system will be protected against the elements, long after the buzzer goes off. We've got you covered.

Douglas® Lifetime Limited Warranty

With over five decades of experience manufacturing elite sports equipment and great customer service to help you identify and solve problems, we stand behind our systems and guarantee a lifetime of dunks. Replacement parts are always readily available, so you never have to miss a minute of playtime. We've got your back and we're here to stay.

Hoop Rejuvenator™ Kit

Hoop Rejuvenator™ allows for easy upgrading of existing systems without the added cost of excavating and replacing them.

- Plumbs backboards on leaning goosenecks
- Allows for goal height adjustment after court resurfacing (up to 6" for H-frames and 5" for direct mount units)
- Designed to fit standard mount plates and gooseneck systems 4-1/2" OD and up
- Acrylic, rectangular steel, and aluminum fan backboard options
- H-frame kit and direct mount kit models
- Breakaway goal (UBG-500F), stainless steel hardware, and zinc galvanizing spray to cover rust spots included
- 3/2" OD goosenecks only use aluminum fan backboard (HRKIT-FA).

*Hardware, Backboard & Goal: 3 Year Limited Warranty, Net: 1 Year Limited Warranty

H-Frame Design:
The H-Frame design is to be used on systems where gooseneck mounts near the center of the backboard, not at the rim, but above it.

Direct Mount Design:
The Direct Mount design is to be used on systems where both backboard and rim are mounted directly to gooseneck.

PRO LEVEL PROTECTION FOR YOUR BASKETBALL COURT

Take Your Court to the Next Level

PRO-FLOOR™ Court Protector

A PRO-FLOOR™ Court Protector is the perfect way to add pro level protector to your basketball court. Chroma-Bond® Digital Imprinting on the underside of the PVC woodgrain top layer ensures your customized graphic stays protected. A durable non-slip base makes sure your court protector stays in place. A truly professional addition to any basketball court!

- Layered construction: Durable non-slip base, clear PVC top.
- Chroma-Bond® Multi-Color Imprinting on underside of PVC for full protection.
- Woodgrain texture PVC top offers protection to your wood floor.
- Cleans quickly with soap & water.
